"THE FIVE HORSEMEN" A MILITANT GROUP FORMED AT NEW LENOX TO WAGE WAR ON SLOT MACHINES, ETC.

A number of leading citizens of New Lenox have banded together and formed an organization which has been named "The Five Horsemen" for the avowed purpose of waging war on slot machines and political corruption.

The following article presented to the press by the leaders of the militant body, sums up its purposes and program:

"The Five Horsemen are a group of individuals in New Lenox whose only purpose will be to bring to the light to the people of New Lenox any graft or political corruption that may occur and to expose and end any practice which tends to waste, or otherwise use any tax money for any purpose, other than for which it is intended.

"It is of course a 'closed' organization as its members must necessarily remain anonymous. Its sole purpose will be to help make New Lenox a better place in which to live and a clean wholesome atmosphere in which to rear its children. It asks the moral support of all citizens in any movement which may become necessary. Any activity will be reported through the press.

"We think it is about time that the slot machine racket must be driven out of New Lenox township. There are at present 12 of the so called 'one armed bandits' in the town taking a considerable sum of money out of town every week. We have upon investigation, found that those who put their money in these machines are mostly those who cannot afford to lose any. They need it to properly support their families and are driven to playing these machines by the desire to get something for nothing. Also the younger children who don't realize that this habit may lead them to more serious gambling as they grow older.

"It is easy to understand why our local political office holders permit them to operate as two of our officials have slot machines in their places of business and as their share of the loot is quite high, they of course would not like to lose this income.

"The attorney general has ruled that these machines were gambling devices and as such are illegal in the state of Illinois. We would like to ask our legislators to pass a law to you permit the laws of our state to be so openly violated, especially in your place of business?

We, therefore, as citizens and tax payers of this community ask you to do your sworn duty to enforce the laws of our state and rid us of this evil. If you fail to do so we will ask to have a committee of citizens appointed to circulate petitions throughout our township to have these machines removed.

"It goes without saying that if it is necessary to force our law enforcing agencies to do their duty, then we had better replace them with men who will do what they are elected to do."

THE (5) FIVE HORSEMEN,
NEW LENOX, ILLINOIS.

Mrs. Chas. Bobzin Passes Away After Long Illness

Mrs. Chas. Bobzin of Frankfort who has been ill for many months, passed away in her home last Friday at the age of 44 years.

Mrs. Bobzin was born in Frankfort township on April 13, 1893. On Dec. 16, 1913 she was united in marriage with Mr. Chas. Bobzin and went to housekeeping on a farm in Green Garden where they lived for ten years when they retired from farming and moved to the village of Frankfort.

Surviving are her husband; four sons, Harold, Vernon, Stanley and Warren; her mother, Mrs. Minnie Burmeister; two sisters, Mrs. John Knauer and Miss Evelyn Burmeister all of Joliet.

Funeral services were conducted by the Rev. Mr. G. S. Gerhold, pastor of the St. Peter's Evangelical church of Frankfort Monday, February 28. Burial was in Pleasant Hill cemetery, Frankfort.

Tinley Fire Dept. Saves Farm Home From Destruction

Passing motorists on Harlem av., discovered the roof on the August Schmeckpeper farm home near Tinley Park was on fire at about 2:30 o'clock Sunday afternoon. Mrs. Schmeckpeper and members of the family did not know about the fire until one of the motorists pounded on the door and said the roof was on fire. The Tinley Park Fire Dept., was called and succeeded in getting the blaze out before it had a chance to get out of control. A good sized hole was burned in the roof. It is thought the roof caught fire from sparks flying from the chimney. Mr. Schmeckpeper who is a watch man at the stockyards was not at home.

Red Cross Child Guidance

For the past four years the Will County Chapter of the American Red Cross has been sponsoring Child Guidance Clinics for children from the Institute for Juvenile Research at Chicago. This Chapter has arranged a series of talks on "Mental Health for Children" which will be broadcast over station WCLS of Joliet each Wednesday night starting March 2 and continuing for five weeks from 7:15 to 7:30.

These lectures will be given by Dr. Marvin Sukov from the Institute for Juvenile Research and the subjects for the five weeks will be: 1. "Is it Heredity or Environment?" 2. "The Difficult Pre-School Years." 3. "Parents and Children." 4. "Special Aptitudes and Disabilities." 5. "Getting the Most for Your Children."

The next child guidance clinic, for children who present any school, behavior, or personality problem will be held in Joliet April 28 and 29.

If any parents are interested in referring children to this clinic, the American Red Cross will be very glad to have them get in touch with their office in the Post Office Building at Joliet. There is no charge for this service.

Mrs. M. Luhning Observes 92nd Birthday Feb. 27

Mrs. Margaret Luhning of Frankfort, Ill., celebrated her 92nd birthday last Sunday February 27 in the home of her daughter, Mrs. Paul Christiansen and family in Green Garden.

At five-thirty, dinner was served to the following guests: John Luhning, Mr. and Mrs. Henry Luhning, Mrs. Anna Haake, Mr. and Mrs. Fred Ahrens and daughter Corrian, Mr. and Mrs. A. J. Parks and grand children, Lester, Franklin, Viola, Marietta and Glenn Christianson, Mr. and Mrs. David Forsythe, Mr. and Mrs. Clarence Waldvogel, Mr. and Mrs. Bernhard Tewes, Miss Lucile Luhning; two great grand children, Betty Mae and Marie Ann Tewes, Mr. and Mrs. Geo. Jahanek, Rev. and Mrs. G. S. Gerhold, Mrs. Wm. Lankenau, Mrs. Jacob Feil, Mrs. Bartel Heisner and Marietta Rahm. Mrs. Luhning's son Frank and grandson Lloyd Luhning were not able to be present as they are at present visiting at Lawton, Okla.

A large birthday cake with 92 candles graced the center of the table.

Mrs. Luhning received many lovely flowers and other gifts and wishes for many more happy birthdays.

New Lenox Girl Honored At Linen Shower

Miss Ruth Bethell was honored at a linen shower Friday evening given by Miss Ruth Woods in her home.

Bunco was played with prizes going to Mrs. Edwin Bormet, and Doris Urch who in turn presented them to the bride to be.

Refreshments were served from a long table decorated in peach and blue, chosen colors of the bride elect. The centerpiece was a beautifully decorated cake with a miniature bride and groom and peach rose buds.

The honored guest received many beautiful gifts.

Mokena Opens Drive To Collect Tax For Dogs

At the meeting of the Mokena village board Tuesday night, the board instructed August Hentsch to make a house to house canvass to collect the dog tax. Persons refusing to pay the tax, will be turned into the township assessor who will include the dog tax in their personal property assessment list. Dogs who have no owners, will be disposed of.

Mokena PMA Local Elects Officers

The Mokena local of the Pure Milk Association held their annual banquet and election of officers in the parlors of the St. John Evangelical church in Mokena Tuesday night. The officers elected are:

President, Charles Erickson; vice-president, Conrad Bormet; secretary and treasurer, Joe Kohl.

BASKETBALL TOURNAMENT, MOKENA MAR. 10, 11, 12

The Mokena grades and high-school basketball teams will sponsor a tournament on Thursday, Friday and Saturday of next week, March 10, 11 and 12. The following teams have entered: Orland Park, Manhattan, Matteson and Mokena.

There will be two games each night. Thursday night the Mokena grades will play the Matteson grades. The second game will be between the high school teams of Manhattan and Matteson. Friday night the grade teams of Manhattan and Orland will play. The second game will be between Mokena and Orland high schools. The winners of the two nights will play the finals Saturday night for the championship. There will be two trophies awarded to each division.

The Mokena School Band will play Thursday, the opening night. The tickets are now on sale. Come out and give the boys your hearty support.

Orland Ant Castle Work of World War Veteran

A Winter paradise for ants has been constructed by Walter Schuler, 143rd st. and Keane av. Orland Park, war veteran whose hobby is studying insects. Out of hundreds of pieces of glass, Schuler has made an ant house that has more than 2,000 inhabitants, which scurry about performing antics thru hundreds of neatly constructed glass passages. He has studied insects for years, and says the ants are the most interesting and intelligent of all the insect species. His "Hotel Antique" is on display at Harry Daniel's gas station at 143rd st. and Keane av.

Mokena PTA Play Proves Big Success

The play "Ticklish Business" as sponsored by the Mokena PTA., on Feb. 23, 24, 25 has come and gone, but memories of this show will long remain with the folks of Mokena. The show was financially and artistically a success, and the PTA was rewarded at the box office with receipts totaling \$261.00. Every member in the cast was well chosen for their part, and all expressed a desire to be in the next show when Mrs. King returns next year.

Mrs. Elizabeth Lowe as Margaret Rogers played her bit with all the fervor of a real trooper. Wilbur Mancke who played the part of Jack Walton, medical student, and Grace Moriarty played their parts to perfection.

When Harold Cappel made his appearance as "Gabe", the colored handy man, well—things just had to stop until the crowd stopped laughing. No one worked harder on or off stage, than Harold, to make this show the success it was.

Eileen Walsh, as the French maid, was very splendidly done and Stokes Nebeker, as hen-pecked Henry, had quite a few "snappy" scenes with this little actress.

Mrs. Vivian Schoop as Merry Garden, the opera singer, displayed real acting ability and not once did she miss a line. Her torrid love scenes with Henry will long be remembered.

Wm. Lowe, as the hard-boiled sport, was as tough as nails and always had a \$500.00 bill which no one could ever change.

Mrs. Minnie Nebeker as Sarah Adams, kept hen-pecked Henry in hot water all the time and made him toe the mark to the letter.

Last, but not least, was Maxwell Williams, taking the part of the broken down professor. When Max made his appearance in his varicolored track suit, he stopped the show. The members of the cast nicknamed him, "The Rubber Man" because of his flexibility.

The American Beauty Chorus, The Pajama Parade, The Little Dutch Girls, and the Chinese Shiks, all deserve special mention.

After the show the PTA, under the direction of Mr. Arthur Schoop, president, had a real nice feed for the members of the cast. After the eats, each member of the cast, gave a speech about the show and there were plenty of bouquets tossed around.

Mrs. King was presented with a corsage of roses and violets by the cast and invited to return again next year for a new show. After the speeches, the cast danced until 1:30 a. m. to the tunes of Messers King and Wachtel.

All agreed they were sorry the show was over and would anxiously await a chance to be in the next show presented by the PTA.

TO HOLD FOOD SALE

The Frankfort M. E. Ladies Aid will hold a food sale at the Frankfort post office, Saturday March 12, beginning at 12 p. m.

New Lenox Live Stock Market Opens Saturday

Wm. E. Berry who is the sales manager for the New Lenox Live Stock Market, having its grand opening Saturday, March 5th is not new at the business. He has had 20 years at the sale business, having managed community sales of this nature thru the Southwest, therefore is thoroughly experienced and is also an auctioneer.

C. B. Drake, who is the auctioneer for the New Lenox Livestock Market has years of experience in the auction business, having sold in every state in the union and parts of Canada, which has included sales for some of the greatest livestock breeders in America, state sales, association sales, etc.

Mr. Drake has sold on the largest community sale in America, which is owned and conducted by an individual, in fact they sold their million dollar sale in June 1933. This great sale is located in a little hamlet in Ohio with a population of about sixty and conducts a weekly sale running into thousands of dollars each week.

Mr. Drake has also sold for the largest company operating weekly sales barns. This company owns and operates in three states, seventeen of the most modern up to date barns in the world. In order to sell the grand opening sale for a new barn the company opened last October in Gallatin, Tenn., it was necessary for Mr. Drake to go by plane from the West where he was on a 3 months tour of registered cattle sales.

Aside from selling for others, Mr. Drake conducted his own community sale at certain seasons over a period of several years.

It is the aim of the founders of the New Lenox Livestock Market to develop a permanent business and establish a market which will be a benefit to all. To thrive, any community sale must be managed on the "up and up". The promoters of the new market expect to thrive and feel justified in asking your cooperation in making a success of this Market which can mean much to each individual of the community.

New Lenox P.T.A. Meets March 10th

The Homemaking group of the New Lenox Parent-Teacher Association will have its regular monthly meeting in the home of Mrs. James Gurley on March 10. At this meeting some new projects will be discussed.

The New Lenox Parent-Teacher Association will hold its regular monthly meeting in the school gymnasium on March 11 at 7:30 p. m. In addition to the business discussion there will be an interesting musical program arranged by the Program Committee, consisting of musicians from the Joliet Conservatory of Music.

The Mothersingers will meet in the home of Mrs. O. V. Rowe on Monday March 7.

R. I. Officials In Broadcast From Rocket Train

A unique and interesting radio broadcast was sponsored by the "Downtown Shopping News" over WLS Wednesday afternoon at 1:45 o'clock when a program was broadcast from the crack Rock Island Des Moines rocket streamliner in the LaSalle Street station.

A. D. Martin, general passenger agent gave an interesting talk on "Keeping 'House at 90 Miles an Hour" referring to the streamliner.

T. J. O'Shaughnessy, assistant to the executive department and T. D. Wickham, supt., of dining car service also were heard in brief radio talks. A girls chorus was heard on the musical part of the program. A number of radio listeners in Mokena and Tinley Park reported listening in on this program which they enjoyed for its uniqueness and points of interest.

Another feature was the description of each coach and the observation.

2 Night Play To Be Given For School Benefit

Intensive work is being put on the play "Muller's School Comedies" to be presented at the Green Garden town hall on the nights of March 17 and 18th. A good advance ticket sale is being reported. The first night admission will be by ticket only, but the second night general admission tickets will be honored. Be sure to attend this play for it sure is going to be good. Show starts at 8 p. m.

Former Banker and Builder In Sheriff Race

Ernest Balgeman, former Crete banker and building contractor, now a resident of Joliet, is a candidate on the Republican ticket for sheriff of Will County. Mr. Balgeman built the St. Peter Evangelical church at Frankfort a number of years ago.

Home Building Contest Sponsored By Public Service

A "Home Building and Modernization Contest" sponsored by the Public Service Company of Northern Illinois offering \$4800 in prizes was announced this week by M. J. Musser, District Superintendent of the Company.

The total prize money will be divided into 24 prizes of \$200 each with eight awards in each of the three major divisions of the territory served by Public Service Company of Northern Illinois. Any new or modernized home served by the Company, on which construction or modernization was started after February 1, 1937 and which will be completed between the period from August 15, 1937 to October 1, 1938 may be entered in the contest. Homes will be judged according to specifications which are: good location and architecture, sound construction and skilled labor, quality materials and equipment, landscaping and interior decoration, sound financing, new materials, plumbing and sanitation, heating and air conditioning, insulation and sound deadening and electric and gas utilization.

"This home building activity is being conducted for two reasons," says Mr. Musser. "First we believe that anything that can be done to increase interest in home building is important to the welfare of all of us in this community. Second, we believe it's worth while to direct attention to new developments contributing to comfort, enjoyment, health and convenience in the modern home."

Caroline Engleman Taken By Death

Mrs. Caroline Engleman, nee Esch, died Thursday March 3, in her home in Frankfort at the age of 80 years.

Surviving are her husband, Henry, two sons, William of Frankfort and George of Joliet; one daughter, Mrs. George Bettenhausen of Frankfort; nine grand children and three great grand children.

Funeral services will be held Sunday afternoon at 1:30 o'clock from the late home to the St. Peter Evangelical church at 2 p. m. with the pastor, Rev. G. S. Gerhold officiating. Burial in Pleasant Hill cemetery.

TINLEY HOME BURNS WHEN LAMP UPSETS

A chicken house which has been in use as a dwelling located south-west of Tinley Park off of 183rd street, was destroyed by fire about 7 o'clock last Friday morning.

The building was occupied by Mr. and Mrs. W. C. Green. According to the story told by Mr. Green, he had no electricity in his place so he had to use the old time kerosene lamp. Some how the lighted lamp was upset when he got out of bed and in a flash the floor coverings were ignited. He tried to beat the fire out, but instead the flames spread faster and he and his wife were forced to flee in their night clothes.

Mr. Green ran to a neighboring house to call the Tinley Park fire department, but to his dismay learned his neighbors did not have a telephone. After a few minutes he finally found a house that had a phone. By the time the fire department was called the flames had completely enveloped the building. When the fire men arrived they were handicapped by the lack of water.

All the contents of the building including valuable books, fell prey to the flames.

BASKETBALL TOURNAMENT OPENS TINLEY MAR. 8

The third annual TYO Basketball Tournament will start Tuesday evening, March 8 in the Tinley Park School Gym. Games will be played Tuesday, Wednesday, Friday and Sunday. As evidenced by the teams entered many close contests are in store before the champions will be crowned. Both of last year finalists are back to defend their titles, Steger Boys and Hazelcrest Girls. There will be three games each session with evening games starting at 7:30 p. m. and the finals starting at 2:00 p. m. Sunday.

The TYO Girls will open the tournament against a revamped Midlothian team, immediately following Orland Boys will attempt to dethrone the champs from Steger and the strong Parker quintet is conceded a better than even chance. The Tinley Boys will meet Beecher in the second Wednesday night feature. Another close battle is anticipated when Mokena Boys meet Midlothian Wednesday evening.

Following is the complete schedule for the tournament:

Tuesday, March 8—7:30 Tinley Girls vs. Midlothian Girls; 8:30 Orland Boys vs. Steger Boys; 9:30 New Lenox vs. Hazelcrest Boys.

Wednesday, March 9—7:30 Steger Girls vs. Hazelcrest Girls; 8:30 Tinley Boys vs. Beecher Boys; 9:30 Midlothian Boys vs. Mokena Boys.

Friday, March 11—7:30 Consolation Girls; 8:30 Winners of Tuesday evenings boys games; 9:30 the winners of Wednesday evening boys games.

Sunday, March 13—2:00 Consolation Boys; 3:00 Girls Finals; 4:00 Boys Finals.

Coming Events

Basketball tournament New Lenox, March 3, 4, 5.

March, 8-9-11 & 13—3rd annual TYO Basketball tournament Tinley.

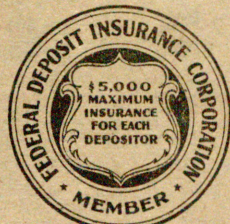

March 12—M. E. Food Sale, Frankfort Post Office.

March 17 and 18 play at Green Garden town hall.

Sale Dates

Edw. Schmaedeke, Auctioneer

March 8—Schreiber Bros., Blue Island.

CONFIDENCE...

In a bank, is born the reliable service it has rendered in the past: its conservative policy, the substantial amount of its capital and surplus and, above all, the integrity of its personnel. That THIS BANK has measured up to those qualifications is attested to by, by the fact that depositors continue to "back it up" by trusting it with their savings. And their number is constantly increasing, we are happy to say.

LOUISIANA'S 'SUPER SALESMAN' GOVERNOR

EYES of the nation in 1938 are on Louisiana, far down in Dixie on the Mississippi river delta, where \$47,000,000 of new industries were established in 1937, attracted by the state's "golden rule" policy toward business and a 10-year property tax exemption plan. The industrialization program is said to have provided jobs for 10,000 building workers and is creating permanent employment for an additional 15,000 persons at annual pay-rolls estimated to aggregate \$25,000,000. The dominant personality behind Louisiana's amazing industrial growth is the 39-year-old Gov. Richard W. Leche, who was lifted from the judicial chair to the gubernatorial seat. He sponsored the "golden rule" policy and has become known as the South's "super-salesman." An able chief executive whose whole life is apparently built around his home state, Leche admits his chief desire is to help make Louisiana a better state for Louisianians, but his revolutionary attitude toward industrialists is making the state attractive to manufacturers seeking means of combating high taxes. The Leche slogan: "If Louisiana takes care of industry, industry will take care of Louisiana."

In his office at the \$5,000,000 skyscraper capitol in Baton Rouge, Governor Leche discusses industrial expansion plans with business leaders.

Next, armed with brief case and plenty of cigars, he invades the stronghold of a "customer."

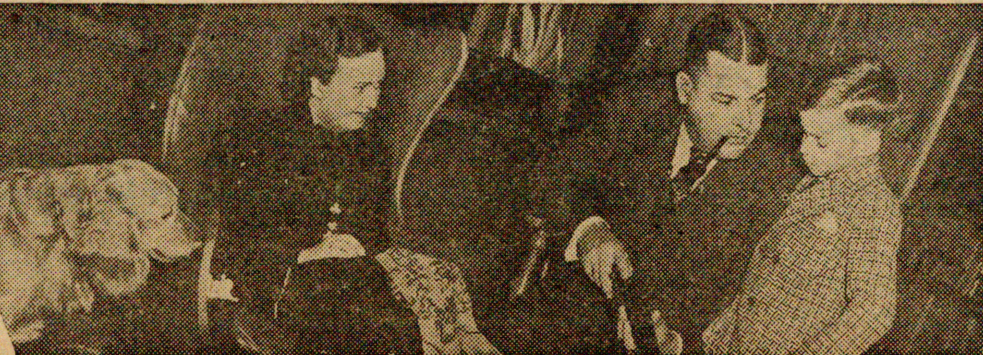

Above: Governor Leche lists Louisiana's selling points, raw resources, climate, abundance of workers and a "reassuring attitude" that business will be protected from burdening taxes and political mauling. Right: It worked! Another industrial firm gets "freedom of taxation" for 10 years.

The governor points to Men at Work. He claims unemployment is vanishing rapidly in Louisiana. Example: Petroleum companies spent \$15,000,000 in Louisiana expansion during the year 1937 alone.

When he relaxes, Governor Leche blows smoke rings, probably hatching some of his "super-salesman" ideas during such a meditative mood. For exercise he prefers horseback riding. His job is strenuous, but he finds complete relaxation in his study at the executive mansion with Mrs. Leche and their son, Richard, Jr. "Tex," the dog, is a favored member of the family. But tomorrow he'll be "selling" again.

Favorite Recipe of the Week

THE soup described below is delicious. It has a delectable flavor and the rich color of the pimientos gives just the desired red touch to the finished product.

PIMIENTO BISQUE

- | | |
|----------------------------|-------------------|
| 1 can cream of celery soup | 1 tsp. salt |
| 1 cup milk | 2 slices of onion |
| 3 pimientos | 1/2 tsp. paprika |

If canned condensed soup is used, prepare according to directions on the label and then add 1 cup of milk. If canned ready-to-serve cream of celery soup is used, pour the contents into a pan and add the cup of milk. Rub the pimientos through a sieve and add to the soup. Add salt, onion and paprika and heat until the soup is hot. Stir frequently to prevent scorching. Remove the onion before serving. Serves 6.

The food with red color in the main course might be a ring mold made with canned beets.

The red color for the dessert might be supplied by a raspberry gelatin made with a can of red raspberries.

MARJORIE H. BLACK.

What Is Proper Use of Furniture Polish?

In a recent investigation, it was proven that many, many homemakers use furniture polish incorrectly—pouring it on a dry cloth, for application to the furniture! This is a gross waste of the housewife's time, energy and her polish! And the latter is usually blamed. We refer, of course, to oil polish—for this type is best to clean, beautify and preserve the furniture. The best oil polish is not greasy, because it's made with a fine, light-oil base. The polish should be applied on a damp cloth—thoroughly moistened with water, then wrung out. Saturate this cloth with the polish—spread on—and rub lightly. The "wet" of the cloth smoothly distributes the polish—and the finish absorbs, receives it evenly! This correct procedure takes the "labor" out of polishing—and requires far less tiresome rubbing! A dry cloth is then used to easily work up the glow, which is even and uniform—the desired effect! This—and only this—is the proper way to use a good oil polish!

MORE WOMEN USE O-CEDAR POLISH THAN ANY OTHER KIND!

... because O-Cedar not only cleans as it polishes, but preserves your furniture—"feeds" the finish, prevents drying-out, cracking. Insist upon O-Cedar Polish, for furniture, woodwork and floors (with the famous O-Cedar Mop).

GRAMMAR LESSONS

A little girl who was in the habit of saying "ain't" for isn't" was reproved by her mother.

A short time afterward, on hearing her cousin use the same word, she ran to her mother and exclaimed: "Mother, Doris says 'It ain't,' but it isn't 'ain't.' It's 'isn't,' ain't it?"

Suggestion

Richard was helping his mother make his favorite dessert.

"Mother, they say 'An apple a day keeps the doctor away!'"

"Yes," mother answered.

"Wouldn't it be fine if three deserts a day kept the doctor away!" he sighed.—Indianapolis News.

FORD V-8 TRUCKS AND COMMERCIAL CARS

TINLEY PARK

The Tinley Park Choral Club meets every Wednesday evening at 7:30 o'clock in the Hirsch Funeral Parlors. Any man or woman interested in becoming a part of this organization or group is invited to attend. This promises to be a very worthwhile organization, one which the citizens of Tinley Park should point to with pride.

Mrs. Martin Uthe, Mrs. C. A. Steinhagen, Gloria Medrow and Mr. and Mrs. Fred Arnold spent Thursday in the Arthur Beagley home in Orland Park.

About four months ago, a number of friends of Mrs. Yarmark's surprised her with a Bon Voyage party, preceding her trip to Germany where she visited with relatives. Mrs. Yarmark has now returned and these same friends again gathered and welcomed her back to the land of the Free. Luncheon was served followed by bunco. Mrs. Yarmark presented each with a gift which she had brought to them from Germany. A very lovely time was had. Those present were: Grandma Hick, and mesdames, A. Mesenbrink, A. Hopman, L. Moss, A. Klann, W. Becker, J. Klepper, H. Chapman, F. Schanz, A. Clemens, E. Wannemacher and M. Rice.

Mrs. E. Chapman entertained the Sewing Club in her home Monday afternoon.

Tuesday evening the bunco club met with Mrs. H. Wilke.

The Hat Shop bunco club was entertained by Mrs. Fred Hopman in her home Tuesday evening.

Mrs. Elmer Stelter entertained several guests in her home Wednesday afternoon.

Mrs. F. Rowden entertained the Tinley Park Bunco club in her home Thursday afternoon.

Mr. and Mrs. Sam De Valk and family have moved into the Brod-huhn house.

Mrs. A. Hirsch entertained her card club in her home Wednesday afternoon.

Mr. and Mrs. H. Clark, spent the week end with the latter's parents in Hegewisch. Mrs. Clark was the former Edna Brookman and who will be very happy to have her school mates call upon her.

The Garden Department of the Tinley Park Woman's Club will meet in the home of Mrs. Frank Baldwin Tuesday March 8th at 2:00 p. m. The program will be a review of the subjects studied during the year and an exhibit of 'Artistic Arrangement of Flowering Branches', which have been forced. The exhibit will be judged and first and second prizes awarded.

Postmaster Paul Rauhoff, mail-carriers Sammy Brunner and Wm. Mabey attended the funeral of the latter's father held near Peoria Wednesday.

Mrs. Emma Bechstein and daughter Catherine have moved into the Wannemacher flat.

Born to Mr. and Mrs. Carl Rauch a son last Saturday.

A number of the Tinley Firemen attended the community firemen's meeting at East Hazelcrest Monday night.

Mr. and Mrs. W. B. Combs left Sunday n a trip to Minnesota.

A card and bunco party for the benefit of St. George's church will be held March 17th.

V. H. Scheer has been quite ill and confined to bed the past week. The village board will meet in semi-monthly session Monday night at which time bids for the hauling and disposal of rubbish for two six months periods.

Wm. West who is a patient in Hines Hospital, is improving nicely at latest reports.

COMMUNITY BIBLE SUNDAY SCHOOL

Lincoln Estates

Held in District 156A schoolhouse
Sunday school 2 p.m.
Gospel message 3 p.m.

This message will be brought by
Rev. S. E. Waldemer.

Matthew 13:44. "Again, the Kingdom of Heaven is like unto treasure hid in a field; the which when a man hath found, he hideth, and for joy thereof goeth and selleth all that he hath, and buyeth that field."

The Danger Of A Cheap Religion.

This parable sounds a needed warning today. We live in a time of comfort and convenience and modernism, and there is a strong tendency toward cheap and easy religion with few duties attached. You cannot serve the Master and the world of sin at the same time. People are searching for bargains everywhere else and look for them in religion. The preacher or sect with a marked down religion to offer at a low cost is popular. Too many people are willing to use Christ only as a convenience and not follow him as a Master. They are Christians on their own terms, up to the point where it profits them in social or business life also in politics, but not up to the point where it costs holiness and sacrifice. Therefore they never own the treasure.

MARLEY

MISS FRANCIS GILLETTE

Mr. and Mrs. Frank Uhde of Joliet were dinner guests Sunday of Mr. and Mrs. Wright Woods.

Mrs. A. J. Cleveland who has been seriously ill is recovering.

Friday evening visitors at the Edward Marshall home were, Mrs. Jane Casson and Mrs. Frank Storm.

The Maple Street Arbor Ancient Order of Gleaners will sponsor a dance March 4 in the Colonial ball room at New Lenox.

Mr. and Mrs. John Day who have been in California for the past two months returned to their home last Friday.

Mrs. James Bell is seriously ill in her home.

Donne Huising is ill with Scarlet Fever.

Members of the Womens club who attended the Annual Project Day in Joliet, Feb. 22, were Mrs. Fred Blodgett, Mrs. Jesse Marshall, Mrs. Rauld Storm and Mrs. Elizabeth Anderson.

Mrs. Christiana Hendricks who has been ill in her home is recovering.

Mrs. Carl Wolters and son of Kan kakee visited Saturday in the Stanley Coe home.

Mr. and Mrs. Alfred Sproat and Lois Jane spent Sunday at the home of Mrs. Helen Rowley in Homer.

Mrs. Ernest Eaton of Joliet spent the week end with her parents Mr. and Mrs. A. J. Cleveland.

Mr. and Mrs. Stanley Coe visited at the Ed Marshall home on Thursday evening.

The March meeting of the Marley Woman's Club will be held Tuesday March 8th in the home of Mrs. Walter Haas.

The Woman's Missionary Society of the Community Church held its regular meeting last Thursday in the church parlors. Dinner was served at noon by the February committee composed of Mrs. Chas. Lahmann, Mrs. G. W. Bush, Miss Josephine Shartz and Miss Minnie Handorf, assisted by Mrs. Oscar Faar. A program was presented during the afternoon with Mrs. Arthur Lauffer, president, in charge. Miss Bessie Sproat presided at the piano. Mrs.

Louis Sass had charge of the devotionals. Hymns were sung by the group after which the lesson on Missions was conducted by Mrs. Fred Blodgett. An article in honor of Abraham Lincoln was read by Mrs. Julian Gorham and a tribute to Geo. Washington was read by Mrs. Everett Bell. After the program, a short business session was held. The society voted to pledge \$350 toward the church fund for 1938 and they also voted to give \$25 to missions.

Services in the Community church will begin with the Bible school at ten o'clock. The Brotherhood will meet in their classroom at the close of the period. A general assembly will be held in the auditorium with Russel Lauffer, Supt., of the Sunday School, presiding. Morning worship services will begin at 11 a. m. with the Rev. E. L. Snodgrass as pastor. Sunday night at 7:30 o'clock, services will be in charge of Mr. and Mrs. Loren Sass.

PALOS PARK

Henry Munch, 83 years old, of 131st street and Southwest highway was struck by a motorist last Friday evening as he was on his way to meet his daughter at the Southmoor station of the Wabash. Mr. Munch was rushed to the Little Company of Mary hospital, where he is slowly improving.

Dr. Papsdorf is recovering from a recent illness.

Mr. Carl Olson of La Grange took moving pictures of the Wabash wreck at Worth.

Mrs. O. W. Johnson, secretary of the Palos Woman's Aid Society of the Palos Park Community church, has announced a meeting to be held in the home of Mrs. Clara Mahaffay, 122nd Place, on Tuesday afternoon March 8 at 2 o'clock. This will be the annual meeting.

Mrs. Elizabeth Shaffer of Mishawaka, Ind., is visiting the Juneman family for a few weeks.

Mr. Juneman has returned to Palos from a two weeks trip in the east.

Palos Juniors will meet in the

home of Miss Alice Crawford, Friday evening, March 11 at which time the newly elected officers will be in charge. The new officers are: Betty Jane Liszt, President; Ruth Vail, vice president; Henrietta Baker, secretary; Patricia Saunders, treasurer and Ethyl Pronger, sponsor.

Announcement has been received of the secret wedding of Miss Laurel June Hyink, daughter of Mr. and Mrs. Henry Hyink of Cassopolis, Mich., former residents of Palos Park, was united in marriage at Elkhart, Ind., to Mr. John Purdy, son of Mr. and Mrs. E. D. Purdy of Cassopolis, Indiana.

Everdina and Saddle Kuipers visited the Art Institute Thursday. The antique furniture and old china dishes were liked most.

The turkey dinner given by the Palos Oak Hills Cemetery Association was a big success. There were more than 200 people present. Dorothy and Stanley Robson furnished the music for the evening.

Mr. and Mrs. Augustyne of La Grange, and Mr. and Mrs. Peter Soulen of Milwaukee, Wis., spent Sunday in the Edward Hyink home.

The running board and fender of Dr. M. C. Hawks' sedan, and the entire front end of Mrs. G. Boner's auto, were damaged in a collision last Friday morning.

The women of Palos are wondering what has gotten into the men lately? Instead of reading that favorite magazine, they have been reading the cook book, however, the mystery will be solved next week.

Spring must be here. Byron Hyink and Fred Stockdale were out Saturday with their bows and arrows.

FRANKFORT

Mrs. Herbert Kohlhaugen

Rev. G. S. Gerhold officiated at the funeral of Mr. Emil August Rochrohr of Markham on Tuesday, February 22nd. Mr. Rochrohr was born in Lake County, Indiana on July 30, 1875 and was united in marriage with Miss Klem on June 1, 1899. To this union were born 2 daughters and 3 sons.

In July 1929 Mrs. Rochrohr passed away after which Mr. Rochrohr lived alone in the family residence in Markham where he passed away at the age of 62 years. He is survived by his daughters, Mrs. Wm. Funk and Mrs. Wilbur Teske of Mokena, and sons; Elmer of Markham, Irwin and Emil of Tinley Park. Burial took place at Blue Island.

Mr. and Mrs. Raymond Warning, Mr. and Mrs. Arthur Marti, Mr. and Mrs. Emil Cappel, Mr. and Mrs. Elmer Woodcock, Mr. and Mrs. Arthur Geuther, Harry Marti and Mrs. Frank Marti attended the funeral of their uncle, Mr. Sass in Chicago Saturday.

Dale Warning returned from Silver Cross hospital Friday following an appendicitis operation.

Mrs. Amelia Hansen of Mokena spent a few days with Mrs. August Weber.

Mr. and Mrs. Walter Harnack entertained the Harnack family in their home February 24 honoring the 72nd birthday of Fred Harnack Sr.

Wilma Kampe returned from Silver Cross hospital Sunday where she underwent an appendicitis operation.

A very pretty wedding was solemnized on February 27 at two o'clock in the parsonage of the Peotone Evangelical-Reformed Church, by Rev. Mr. Plassman when Miss Florence Harnack of Frankfort became the bride of Mr. Walter Toben of Peotone. The bride was attired in a white lace floor length dress with a bridal veil and carried a bridal bouquet. Her bridesmaid, Miss Ruth Toben, sister of the bridegroom was beautifully gowned in peach lace and wore a hat of the same color. She carried an arm bouquet. Mr.

Clarence Harnack, a twin brother of the bride served as best man.

After the ceremony a bountiful dinner was served in the bride's home to relatives numbering 27. The couple received many beautiful gifts. They are making their home on a farm near Peotone.

Mrs. Perry, underwent an operation in Silver Cross hospital recently.

Miss Annette Kohlhaugen was a lucky person on Saturday Feb. 26 as she won as a gift a table lamp on the Leath request program on station WCLS, Joliet. She had requested a number in honor of her grandparents, Mr. and Mrs. Henry Harnack who were celebrating their 47th wedding anniversary. She presented the lamp to them.

The monthly supper on Feb. 24 of the Evangelical church was well attended. The oyster supper netted well and the servers wish to extend their thanks to all who supported them.

CARD OF THANKS

We wish to extend our gratitude and thanks to our many friends, relatives and neighbors for their many acts of kindness and sympathy shown us in our recent bereavement in the death of our beloved wife and mother. We also extend our heartfelt thanks to all who sent floral offerings messages of sympathy and for the use of cars.

CHAS. BOBZIN and SONS

NEW LENOX

Miss Ruth Bethel of New Lenox, who will become the bride of Carl Ulrich of Monee, on March 26 in her home, was honored at a kitchen shower Saturday evening, given by Miss Lois Miller and Miss Lois Lorenz in the Miller home.

Games were played for which prizes were awarded to Lorraine Tauber, Mary Jane Gougar, Jean Fitzer and Marjorie Schmuhl.

A Treasure Hunt was held which was won by Miss Evelyn Moore. Cootie was played at five tables, and prizes were awarded to Lorraine Tauber and Lenna Alexander. All prizes were in turn presented to the honored guest.

The home was beautifully decorated in crepe paper streamers of blue and peach, the bride-elect's chosen colors.

Refreshments were served from a half circle table with Miss Bethel seated in the center.

Many beautiful gifts were presented to the bride-elect.

Those present beside the hostesses and honored guest were: Jean Fitzer, Marjorie Schmuhl, Lorraine Tauber, Mary Jane Gougar, Ruth Wood, Marjorie Jensen, Betty Nelson, Doris Pugh, Lenna Alexander, Audrey Hoffman, Audrey Osmus, Mrs. A. Bethel, Mrs. H. Lorenz, Mrs. Wm. Werner, Mrs. G. Bethel, Mrs. H. Miller and Mrs. C. West all of New Lenox, Miss Evelyn Moore of Mokena and Miss Marjorie De-Long of Joliet.

Monday evening Miss Bethel was honored at a lovely party given by the Queen Esthers, in the home of Mrs. C. West. The group presented Miss Bethel with a lovely gift.

Games were played and refreshments were served.

This Friday evening Mrs. George Bethel will entertain for Miss Bethel in her home at a miscellaneous shower.

On March 17, Mrs. John Jensen of Joliet and Mrs. Clarence Hoffman will entertain at a miscellaneous shower for Miss Bethel in the Jensen home.

Miss Dorothy Seybold of North Chicago has returned home after spending a week with Miss Ruth Wood.

Mr. and Ronald Button and Mr. and Mrs. Gordon Button of Chicago visited here with relatives and friends Sunday.

Mr. and Mrs. Thomas May of Joliet were dinner guests Sunday in the A. W. Walsh home.

Miss Beatrice Walsh spent last Thursday and Friday in Mokena with Miss Doris Urch.

Miss Ruth Wood entertained in her home last Friday evening at a linen shower in honor of Miss Ruth Bethel who is to be married to Mr. Earl Ulrich of Monee on Saturday March 26th. Bunco was played and prizes were awarded to Mrs. Edw. Bormet and Miss Doris Pugh. Luncheon was served at one long table. Many beautiful gifts were presented to the honored guest. Those present were: Mesdames, Alfred Bethel, Edw. Bormet, George Bethel, Helen Gillette and Wm. Wood. Also Doris Pugh, Miss Bethel and the hostess.

Mrs. Elizabeth Block and daughter, Phyllis and Dorothy have moved to Ingalls Park.

Mr. and Mrs. LeRoy Breen and family of Chicago, Miss Darlene Draper of Waukegan and Mr. and Mrs. Fred Woods and family of Joliet were week end guests in the Wm. Woods home.

A group of friends surprised the Frank Eich family at a farewell party in their home Saturday night. Cards and dancing was enjoyed. The guests were: The Geo. Eich family, Marjorie Kellenbach Fern Trevena, Wm. Gilbert, Carl Fell-rath family, Mr. and Mrs. Jack Kinsler, Mr. and Mrs. Adam Eich, Mr. and Mrs. Jacob Eich, Elmer Rothles-berger and Lambert Ruettiger of Joliet. Also the Nicholas Eich family of Lockport, Pete Peterson of Fairmont, Joseph Kinsler of Mokena, Mrs. Elizabeth Block, Doris Schneid-er, Frances Berens, Mrs. Roy Reiter and sons and Mr. and Mrs. Ernest Oram Jr., and family of New Lenox.

Mr. and Mrs. Raymond Osmus entertained members of the "No Name Pinocle club" Saturday night in their home. Prizes were awarded to Mrs. J. Bruggeman, Louis Hoffman, Charles Carlson and Mrs. William Drake. Mrs. Chas. Carlson received the traveling prize. Mr. and Mrs. Ed. Sievert will entertain the club in two weeks.

Mrs. Charles Ellis entertained the "Entre Nous" club in her home last Wednesday afternoon. Areplane bunco was in play at three tables with prizes being awarded to Mrs. George Hunt, Mrs. Wm. Penn and Mrs. Warren McIntyre. In two weeks Mrs. Hunt will be hostess.

Mrs. Viola Corp and son, were guests of her mother, Mrs. Anna Mattes, in Chicago, Sunday.

Mr. and Mrs. Roy DeVore of Chicago; Mr. and Mrs. Henry Miller and Mr. and Mrs. Arvid Swanson were dinner guests Sunday in the Leo Waldvogel home.

Miss Leona Eich is spending a few weeks in Joliet with her aunt and uncle, Mr. and Mrs. Thomas Seahill.

Mrs. Harry Fitzer entertained the afternoon pinocle club in her home Thursday. Prizes were awarded to Mrs. Anton Tauber, Mrs. James Tauber, Mrs. Charles Reeser. The travel prize was awarded to Mrs. Fitzer. Mrs. Fred Sievert will entertain the club in two weeks.

Miss Harriet Francis of Cham-paign was a week end guest in the Wilbur Rapson home.

The Frankfort-New Lenox 4-H club will meet Tuesday evening, March 8, in the Francis school. The meeting will be conducted by the club president, Chester Ebert.

Mr. and Mrs. Frederick Thieme of Chicago were guests Sunday in the H. A. Fink home.

Mr. and Mrs. Alvin Kohlhaugen entertained at a birthday dinner for Marilyn Jean who was 4 years old and her brother Donald who was 1.

Mrs. Howard Ayres is ill in her home.

Mrs. Anna Copper has returned to her home in Rockford after spending a few days with her mother, Mrs. O. Pease.

Mrs. Fred Gould entertained at Lexicon in her home Wednesday afternoon. Prizes were awarded to the winners. Refreshments were served at the end of the game. The guest list included Mesdames Albert Marti, Will Sine, John Spuehler, Archie Corp, A. D. Miller, George Morris, Louis Pelkey, also Miss Ethel Spuehler and Miss Bess Jones.

Mr. and Mrs. Louis Wondrasek are the parents of a son born in their home on February 16.

Mr. and Mrs. Earl Hunt are the parents of a daughter born last Saturday in Silver Cross hospital.

Mrs. William Ayres of Decatur is spending a few days with her son and family.

Billie Koerner son of Mr. and Mrs. Lester Koerner, who has been ill in his home, is somewhat improved.

The New Lenox grade school basketball teams, lightweights and heavyweights lost both games to the Frankfort teams last Wednesday night. Lightweight score being 13-12 and heavyweight 22-18.

On Friday night the lightweights lost also to Mokena by a score of 16 to 12 while the heavyweights won from Mokena 22 to 14.

Don't forget the 3rd annual basketball tournament to be held here Thursday, Friday and Saturday nites this week. The band parents association will serve refreshments and the band will play all three nights.

Mrs. John Suehler opened her home Tuesday to a quilting party. A pot Luck dinner was served at noon.

Mrs. Frank Alexander opened her home Tuesday to a pot luck luncheon and quilting group.

GOOD BYE, OLD FURNACE COIL

You cost too much to keep—and loaf all summer, too

The High Cost of So-Called "Cheap" Water Heating Methods

- (A)—Your furnace coil gobbles up one shovel of coal out of every five.
- (B)—ONE-FIFTH of your coal bill goes for water heating when a furnace coil is used.

... I'M TRADING YOU IN ON A MODERN AUTOMATIC GAS WATER HEATER

New Low Operating Costs Bring Carefree, Year 'Round Hot Water Service Within Reach of All

SPECIAL! THREE MONTH TRIAL OFFER

(Limited Time Only)

\$1.50 DOWN

Up to 48 months to pay balance on your Gas Service bill. \$10.00 allowance for your old side-arm, furnace coil or coal-pot heater. ... \$10.00 allowance for installation. (Offer applies only to Automatic Gas Water Heaters having a cash price of \$60.00 or more. Not including installation).

● Never before have you been able to have Automatic Gas Water Heating service at such low cost. Hot water day and night, winter and summer—for kitchen, laundry, bath—for every purpose. Hot water at the turn of a tap!

Save time ... save money ... save running up and down stairs. Enjoy automatic gas water heating at a money saving over previous automatic gas water heating costs of from 26% in the average home to 40% or more, depending on how much hot water service your home requires. See the modern Automatic Gas Water Heaters at your Public Service Store TODAY!

Plumbers and other dealers in Automatic Gas Water Heaters are also featuring liberal offers ... See them now!

Why Cornstalks Stand Up.

Why do cornstalks stand up? The farmer may well reply because the stalk is strong enough not to bend over and sufficiently well anchored by roots to keep it in an upright position. But what makes the cornstalk strong and what brings about the extensive root anchorage? We can go back reason behind reason until we get the structural unit, the plant cell with its cell walls, the structural strength of the plant tissue being merely the sum of the strength of the cell walls. We ask then, what in plant growth makes strong cell walls particularly of the cornstalk? When the corn is growing in the green succulent stage the stalk tissue is soft but this stalk tissue hardens as growth proceeds. Cellulose is being replaced with lignin, a process that we call lignification. With highly developed lignification we have strong stalk structure.

Let us consider the roots. We know with the corn plant we have two separate root systems, one the nutrition gathering roots and the other water gathering roots, the latter we call the water vascular fiber root system. We know that both these root systems develop during the vegetative stage of the plant, which closes with pollination and that after pollination the nutrition gathering roots are absorbed and the water gathering roots remain and strengthen and the anchorage of the plant when mature is maintained not by the nutrition gathering roots but by the water vascular fiber root system.

After maturity we have noticed that this remaining root structure has the same lignified nature like the outer wall of the cornstalk and we reason that what is responsible for developing the strong cell wall structure of the one with its advanced lignification is similarly responsible for this strong, sturdy extensive water gathering root system that holds the cornstalk with its weighted ear in an upright position. Lignin fiber is a carbohydrate in the same class with the other carbohydrates, cellulose, hemicellulose, sugars and starches. Let us for the sake of clearness and understanding introduce a term that all of us in considering plant growth will have to become familiar with. That is "cell metabolism" and means the growth or development of a cell which is the unit structure in a living organism. The term may seem a little intricate at first, but as we all expect in our farm experience to consider living things and life processes, we will have to meet and use it in our farm understanding.

Another thought, there are four economically important chemical elements involved in plant growth, namely, nitrogen, potassium, phosphorus and calcium. We have named them in the order of their cost if carriers of these elements have to be purchased. We know that nitrogen is concerned in the leaf structure and ultimately is synthesized or built into the plant proteins. Potassium is largely involved in the growth of stalk and stem and is essential for the fixation of sugars as well as having a part in the fixation of carbon in the form of cellulose or lignin. We must have potassium to make stalk structure. Phosphorus is the element most largely concerned in root structure and later, on root absorption is moved to the embryo of the seed to provide for germination and the rootlets of the seedling in the new cycle of life. Phosphorus with calcium is essential for cell metabolism and cell wall structure as well as roots and where we have a plant that has a stiff, stout, strong stalk or stem coupled with an extensive well anchored root system we recognize at once that that plant had an initial foraging capacity for phosphorus as well as calcium but particularly phosphorus. The same extensive root structure could also get the potassium from our clay soils for stalk growth but it could have tall stalks with an abundance of potassium, yet with a deficiency of phosphorus there would be weak stalks because of weak cell walls and a deficient root structure, both of which could mean tendency to lodge and the stalk break over.

Now, the thought we want to get clearly in mind is that both phosphorus and calcium are essential in cell metabolism, which is the building of the cells that make up the plant structure. Where the plant has within its system an abundance of phosphorus it will build strong cell walls. The development of stalk growth will not only be rapid but the process of fixation of carbon as cellulose and lignin (lignification) will be well advanced and here is not only where we get strength of structure but high resistance to invasion by either disease bacteria, disease fungi or insects.

There is another thought that all of us want to take the time to get clearly in mind with reference to a plant's use of phosphorus and that is we must distinguish between the ability of the plant to procure and assimilate or use phosphorus (which is an inherited capacity) from the availability of the phosphorus in the soil. For instance, some plants have an outstanding capacity to forage for phosphorus in what may be a phosphorus deficient soil and yet have more phosphorus in that plant system than another plant which lacks the capacity to forage for and assimilate phosphate but growing in a high phosphorus environment. These two conditions must be distinguished and kept clearly in mind. Of course, where a plant has the in-

View taken January 13, 1938 of experimental plot of double cross Pfister Hybrids. Timber, soil, no manure or fertilizer. Thomson farm, Frankfort, north of the Lincoln Highway. (See other picture for close up on two rows.)

herited capacity to forage and particularly to assimilate and use phosphorus in its system when in a high phosphorus soil will do much better than where the same plant has to forage for phosphorus and still be restricted in the amount it can procure. It is an additional advantage for a high phosphorus gathering plant to be in a soil that has an ample phosphorus supply and its yield will be still greater.

The outstanding feature of the recent strains of hybrid corn developments are that such have an unusual capacity to forage for phosphorus or in other words, to rob the soil of phosphorus. They show this capacity both in the early development of extensive root structure which goes down to former untapped zones of the soil and later strong stalk structure, the combined effect being resistance to lodging and disease.

Now, let's trace the movement of phosphorus in the growth of corn. All the phosphorus that is taken from the soil is procured during the vegetative period of the plant, which terminates at pollination and the greater portion of it is obtained in the earlier stages of this vegetative period. Much of it is first stored in the nutritional root reserves. When jointing begins it is translocated first to the stalk cell metabolism or stalk growth, then after pollination nutritional root absorption begins and the translocation proceeds to kernel development on the ear and it is highly essential at the time of the development of the ova in the embryonic ear that there is an abundance of phosphorus in the plant system. As the ears grow and the kernels develop and the translocation of phosphorus goes to the embryo of the kernel to carry out the prime purpose of the plant, the perpetuation of the species by providing for reproduction and phosphorus is the element primarily concerned in reproduction. In the embryo there must be enough phosphorus to make the rootlets of the new seedling. Where the plant has been unable to get an ample supply of phosphorus either through inherited plant deficiency for procuring and assimilating phosphorus or through its absence in the soil, then nature to carry out its primary purpose robs all the remaining cell wall structure of the plant in order to get all the phosphorus possible for the embryo of the kernel. The robbing of the cell walls of the stalk naturally weakens it and where this robbery began early in the translocative period, lignification was delayed and deficient—a weak stalk. Further, a weak water vascular fiber root system (which is the water procuring root system) that is dependent on to hold the stalk upright in the soil develops. Here lodging begins.

Now, we can see why we should have an abundant supply of phos-

phorus in the plant system, plenty of phosphorus to make a strong deep rooted foraging capacity and anchorage, plenty of phosphorus for the development of all the embryos on the kernels for the purpose of reproduction without robbing the cell wall of stalk and stem or any other part of the plant structure and this takes us back to the two big things which should not be confused. An inherited capacity of plant to procure through an extensive root system phosphorus from the soil and to assimilate it in its plant system and then enough phosphorus it can't get it if it isn't there.

In some of the outstanding strains of hybrid corn we have an inherited capacity of an early extensive root structure that will go down to lower than usual depths in its foraging activities and will get more phosphorus than ordinary open pollinated corn. It will yield a greater crop but it will also in time, maybe before some of us expect, wipe out these zones of soil of their natural phosphorus. Therefore, in our picture of the benefits to be enjoyed through the adoption of these higher yielding strains of hybrid corn is that their yield increase should be used to procure and replenish our supply of soil phosphorus and these additional yields will in reasonable time enable us to obtain and replace the phosphorus that has been removed from our soil in the past seventy-five years of industrious silage and cropping. If we use these hybrids to rob the soil without replacement the degree of soil depletion and helplessness that will follow will be much more severe.

You will note the illustration of the advantage of a high phosphorus procuring strain of hybrid by a photograph taken on January 13th, 1938, by Ensign J. W. Thomson, U. S. N. (on leave) of a three acre plot of Thompson's Top-Yield Pfister Hybrids that was grown just north of the Lincoln Highway in Frankfort Township, altho this plot is not readily seen from the highway. It is about 60 rods north of the highway and at the edge of the timber. The soil is clay timber soil. This picture was taken from a treetop of the neighboring timber and shows the unhusked lot on a high windy day (wind velocity about 35 miles per hour) with a lodging up to that day of under 2 per cent. Most of this lodging was occasioned by crows the unhusked experimental patch being coming a rendezvous or feeding ground of the crows. Crows would hang on to a stalk and pick at the ears. Occasionally one here and there would bend over under their weight and break over.

Another close-up view between two rows appears in the adv. on this page. These serve as illustrations of what can be expected from a par-

ticular hybrid strain that has the capacity of both foraging for and assimilating phosphorus.

Should Your Hybrid Seed Corn Be Grown On High Phosphorus Soil?

Corn growers know that the outstanding feature of the now advanced and accepted hybrid corn plant is its greater root structure and extended plant food foraging capacity. This is just another way of stating that it has higher phosphorus foraging capacity, as we know phosphorus is the element chiefly concerned in root structure and growth.

It has been reported that there is an uncertainty in many farmer's minds concerning the advantage or disadvantage of hybrid seed grown on phosphated ground, largely because the thought has been raised and circulated by vendors of hybrid seed. These vendors, not having phosphorus advantage in the seed they are selling, suggest that hybrid seed corn grown on land that had an ample or abundant phosphorus supply might be unsuited and not grow as well when planted on phosphorus deficient soil, or on land which had not received additions of some phosphorus carrier. Here is another instance of where it is better for farm to do their own thinking and exercise their own judgment, based on understanding as distinguished from accepting the views or being influenced by the sales assertions of others.

Consider the part played by phosphorus in plant growth, seed development, and germination. Phosphorus is the element largely concerned in reproduction of all life, but to carry out this purpose plays an essential part in all stages of growth. We first appreciate that the now accepted advanced corn hybrids are those that have outstanding root structure, and this we know is evidenced and a reflection of not only a phosphorus utilization by the plant but a phosphorus getting capacity. It is the same understanding we apply in considering alfalfa and the clovers, whose outstanding feature differing from other plants, is their more extensive root structure. We know that these particular plants are high phosphorus feeders. These outstanding strains of hybrid corn, with their better foraging capacity, develop root systems that go down to previously untapped zones of soil for their mineral supply, including phosphorus; and have the additional capacity to assimilate phosphorus into that strong plant structure that anchors well into the soil stands upright, and makes a higher yield.

As phosphorus is the element chiefly concerned in reproduction, with many plants where during the vegetative period insufficient phosphorus has been gathered into the plant system partial abortion occurs, and only that amount of seed matures that corresponds to the phosphorus already within the plant structure. The falling of apples in the early stages of growth, and the restriction of peas in the pod much under the setting of embryos, are just instance of this seed growth readjustment to the phosphorus supply.

The primary purpose of all life is to perpetuate the species thru reproduction, and, as phosphorus is the element chiefly concerned in reproduction and germination, we understand why all other tissues of the plant are robbed of phosphorus, in order to supply the needed phosphorus for the developing seed embryo. We further appreciate that upon germination the seed must have within itself the materials, or phosphorus, present to make the rootlets of the seedling, because until these rootlets are established if the soil no sustenance or plant food can be obtained therefrom.

As potash is largely concerned with the development of the stalk or stem, we then see why potash is not needed, and only traces of it are found in the seed, but phosphorus is essential for the rootlets and nature provides it in the embryo of the seed for this initial purpose. Not only extent but speed of growth of the seedling depends directly upon the establishment of the root system. We thus see how essential it is that the embryo of the seed has an abundance of phosphorus in order that establishment of the seedling and extent of its development may be most rapid and the greatest possible.

This is where and how we make possible the carrying out of the outstanding hybrid feature of rapid root development, and which, in turn, will accomplish the greatest food foraging and phosphorus gathering work. This rapid start is all the more needed in a phosphorus deficient soil where the burden of the effort is to grow and extend farther and deeper into the former untapped zones of soil to get the great amount of phosphorus that this hybrid type of plant requires, and must have to make higher yields.

Some of us can get examples illustrating life processes from types of life we are more familiar with, and we get a good illustration of the value of infant advantage and nourishment in consideration of the following problem. Suppose we have reason and purpose in buying one of two calves of equal thoroughbred inheritance. Their mothers are full sisters and they come from the same sire. Assume we have a winter ahead of us wherein we are going to be extremely short of feed and the animals will have to exist through a

long period of hardship on short rations and we want to select for this situation the best animal. Further, let us assume that during the prenatal period one of these animal's mother was starved and on low rations, and the other abundantly fed. Further, after birth the calf from the starved mother was restricted on milk supply and came through a short fed infant existence. The calf from the well fed mother was fed abundantly and responded to this fine infant feeding.

Now, with the inheritance features of these two calves identical, but the difference in pre and post natal feeding conditions, which one of the calves would you take on equal terms, knowing that the coming was going to be one of hardship and short feeding? Which one would you expect would come through these conditions the best? Of course you would say there is no argument here. The well nourished calf would withstand the hardships with the least injury and make the best animal for the future. Any one who would think differently ought to have his head examined.

The same is true with hybrid seed corn, carrying the same germ plasm, and where we are expecting to plant on a phosphorus deficient soil, we know that the seed that had that abundant supply of phosphorus in the embryo, and that will make the quickest growing seedling root structure is the seed that we want for the good forager and high feeder in our soils because it is going to have a struggle ahead of it. We know that the seedling advantage will give it the advantage all through its life period, and in the end it will make the highest yield and highest quality corn. We cannot put into the seed kernel sufficient phosphorus to make the ear of its progeny plant, but we can put into the kernel the phosphorus that will make the most virile, quickest growing disease resistant seedling that will always have the advantage over one of its kind that was shorted on phosphorus when matured.

Selecting seed corn is no different from any other farm business problem. We wait to exercise our judgment, based on understanding and influenced as little as possible by salesmanship enthusiasm, which advances plausibility that seems to be convincing but on analysis, with sane reasoning, discloses sales prejudged cupled with erroneous statements.

The highest endowment any seed can have to start off its new cycle of life, equipped and fortified to withstand the infant trials and hardships as well as to get a maximum plant food supply for its nourishment and well being, is a bountiful supply of phosphorus.

In the early years of hybrid seed corn little was known of the soil environment it sprang from. Just the seed, the bag and the tag, and the printer's ink on the latter. Then comes the salesman with copy of yield test made from some large, favored but kernels from selected ears of experimental hybrids and possibly not related thru germ plasm to the seed offered for farmer's planting. But the seed the farmer will demand and use in the future is the seed he saw growing in the field from foundation seed, the pedigree of which was openly declared and published and, in turn, descending from inbred numbers that have been universally identified and recognized in many state yield tests. The farmer wants no mystery, just plain facts and the opportunity of personal observation. He will do his own reasoning.

Production Creates Employment

By RAYMOND PITCAIRN
National Chairman
Sentinels of the Republic

Employment, as every American knows, depends on production.

When production booms, jobs and purchasing power flourish. When production is curtailed, jobs decrease and relief rolls mount—as is happening in America today.

Obviously then the way toward increased employment is to encourage production. And, conversely, the way to swell relief rolls is to discourage production.

This is no new idea. America has realized it throughout her history, and has progressed in general well-being as sound production has increased. Out of this process have come great cities, great areas of cultivated lands, great industries, great states, a great nation.

Every American of voting age can remember the part played by three young and growing industries—the automobile, the motion picture and the radio—in helping to lift us from the post-war depression of the early twenties to new heights of production, employment and general prosperity.

That was because the production and employment which such activities represented were widely encouraged. The progress they assured would have been impossible under a barrage of punitive taxes and abuse, against which the group of small business men who met in Washington recently voiced their protests.

Neither then, nor in other days of prosperity, was America wealthier in lands, in equipment, in resources, or in the intelligence and ability of her people, than she is today.

Wider education and scientific advancement have opened still further the door to progress.

America can go forward, and is straining to do so. What she needs is a readiness at Washington to strike off the shackles with which unreasonable taxes and bureaucratic regulations have bound her giant limbs.

Let this be done and the road to increased production, increased employment, increased purchasing power and greater national well-being will be opened again.

Congressional View

Congressman Chauncey W. Row
11th District, Illinois.

Who Owns The Land
Under The Ocean

The Judiciary Committee of House of which the writer is a member, is now holding hearings on Senate Joint Resolution No. 208 introduced by Senator Nye which, if acted into law will authorize and direct the Attorney General of United States through speedy appropriate proceedings to acquire and establish the title possession of the United States various submerged lands along coast of the United States and low the low water mark and within a distance of three miles under ocean below said low water mark. The object of the legislation is to obtain for the United States government the vast petroleum deposits under lying these submerged lands with the hope of ultimately conveying these vast oil deposits into a val oil reserve. It is the content of the Navy Department that with all its intents and purposes the submerged lands under the waters of 3-mile maritime belt surrounding United States are unappropriated a proprietary sense, and that the submerged lands have not heretofore been classified as public lands there appears to be no good reason why Congress may not so classify them and deal with them in the same way as it deals with the public main of the United States. The in question and the petroleum deposits underlying them have been plighted to a great extent by private commercial interests, and it is contention of the Navy Department that such lands and the deposits oil beneath them, are necessary an oil reserve because of the fact that the petroleum reserves owned by the United States are serious danger of depletion and loss. Several states and a multitude private commercial interests are opposing the enactment of the legislation.

Boy Scouts

Potawatomi Trails Council
Forty-six men attended the opening session of the 1938 Scoutmaster Training series held at the Bloom High School, Chicago Heights last Saturday February 28. According to P. H. Keen, Chicago Heights Chairman of the Training Committee for the Potawatomi Trails Council, a good percentage of communities in the Council were represented at the course.

C. B. Allen, Assistant District Commissioner from Harvey acted Scoutmaster of the Training Course Troop of Leaders, Robert U. Troop 7, Chicago Heights, Assistant Scoutmaster; Joe Feebery, Troop Chicago Heights, Senior Patrol Leader; Wm. Carrier, Asst. Scoutmaster, Troop 42, Homewood, Scribe; Arthur Kendall, Scoutmaster Troop 7, Chicago Heights; Joe Ott, Asst. Dist. Commissioner, Harvey; and Billy Goetz, Scoutmaster Troop 42, Homewood, Patrol Leader.

The Leaders Training "Troop" voted the afternoon and evening discussion of Troop methods a problem. F. Price, Sauk Trail District Chairman of Organization led interesting discussion on "Responsibilities of the Troop Committee." Joe Feebery gave a brief demonstration on Handicraft. During evening, the "Patrols" outlined a series of Troop Meeting Programs. A Lambrecht and Miss Lillian Collier Chicago Heights, assisted in song fests.

The next session will be held Lowell School, Harvey, Saturday March 5th, beginning at 3:30 p. Any men interested are invited attend.

The concluding session of the Training Course, will be held at Joliet Boy Scout Cabin, Saturday and Sunday March 12 and 13.

STANDABILITY

This close up photograph of Thomson's Top-Yield Hybrid Corn was taken January 13, 1938, planted June 5, 1937. This experimental unhusked plot was left as a demonstration of resistance to lodging. Timber clay soil along woodland. Soil treatment: Phosphate applications in 1923 and 1925. No manure or fertilizer application.

The best endowment your 1938 hybrid seed corn can have is an abundant phosphorus supply. This is assured when your seed is grown on high phosphorus soil. Your best evidence of this is your own observation. You saw Thomson's Top-Yield Seed Corn when growing in the field in Frankfort Township last summer and observed the matured ears fully developed on upright stalks: the best evidence of high phosphorus endowment. It is adapted to Will County vicinity soil and climate. It will give you standability with more yield. Seed graded within narrow limits of shape will assure accurate hill count in your planter plates. Lowest acre seed cost with standability and highest yield.

George Thomson

FRANKFORT, ILLINOIS

ORLAND

Mr. and Mrs. Arthur Beagley entertained the following guests at dinner Sunday in honor of their

daughter Joyce's eleventh birthday. Mr. and Mrs. Wm. Junker, Mr. and Mrs. John Blume and son Wayne and daughter Dolores, Mr. Ben Yunker and Mrs. Edna Kriemier and son Vinson. In the afternoon, Joyce's little school mates and friends came and

surprised her. Games were played, prizes were awarded to Joyce Huellet of Midlothian, Bernice Enders, and Joan Homerding and Dorothy Yunker.

A delicious luncheon was served. A large birthday cake adorned the center of the table. Little Phyllis Enders led the girls in the Birthday song. Miss Joyce received many beautiful gifts.

Mrs. Jake Kramer and Mr. and Mrs. Wm. Junker visited at the Frank Sievert home Sunday evening.

Mr. and Mrs. Albert Lorenz of Mokena have moved on the R. G. Myrick farm now owned by J. M. Yunker.

Born to Mr. and Mrs. John Andres, a baby boy. Mrs. Andres was the former Mary Riggles.

Mr. and Mrs. Roy Newton and family moved to Mokena on the Jake Schiek farm.

Arrian Yunker is the proud owner of a Ford V-8.

Beginning with March 15, the Orland Library inaugurating a soap carving contest for children from the ages of 6 to 9 years. They are invited to register at the library at Orland Park and bring soap and knives.

The Orland Park village pump house is to be improved with an interior coat of new plaster board new windows and doors. Contract for this work was awarded to Harry Rauch.

Merle Cooper of Orland and Ray Mager, Ernest Bateman, Harold Stelter and Alvin Stelter of Tinley Park returned Monday from a 10 day trip throughout the south land. They visited Miami, St. Petersburg, Jacksonville, and also stopped off at New Orleans but not in time to see the Mardi Gras. The trip was made by automobile. They left New Orleans Sunday evening at 7:30 and arrived at Orland Park Monday evening at 10:40. The entire trip was 3885 miles.

The dance sponsored by the Parish club of St. Michael's church at Goodings Grove hall last Saturday night was exceptionally well attended.

The play "You Wouldn't Fool Me" sponsored by the Walther League of Christ Lutheran church of Orland Park, Feb. 24 and 25 at the Orland school auditorium was a decided success. The play was very well attended both nights. Following are the cast of characters:

Andrew Davey, Ralph Kimmel; Lucy, Bernice Rauch; John Cameron Henry Horn; Charles, Arthur Kimmel; Ivy, Cameron, Irene Stelter; Grandma Cameron, Betty Habenich; Nancy Cameron, Lois Groskopf; Victor Golden, Owen Nicolaj; Bruce O'Mara, Alvin Stelter; Agatha Golden Davey, Margaret Ebeling.

At a meeting of the village board held Monday night the matter of erecting street sign posts throughout the village was considered favorably and will be given final consideration at the next meeting. It is proposed to purchase fir posts on

which a 4x4 foot square sign will be fixed with galvanized bolts. The signs will be painted on an orange back ground on which the names of the streets will be painted. These sign posts will be erected along the principal streets of the town.

Robert Miller while playing basketball at Palos Park recently injured his right leg below the knee when he bumped into a radiator. Infection set in necessitating an operation. He is now confined to his home and from present indications it is said it will be several weeks before he will be able to resume his school studies.

On the 8th annual Gold Basketball tournament at Whiting, Ind. the Brennan Gables Lts. were eliminated by the Club Alfalfa by a score of 37-26. The Brennans took a 10-4 lead but at quarter time it was 11 all. At the half the Club team took the lead 20-16. In the second half the regulation size floor and their heavier opponents soon tied the Brennan Boys who gave all they had and emerged with the small end of the score. Friday Feb. 25 the Brennan lights defeated the Oak Forest lights 30-25. The Brennans are trying always to play as a unit and have been quite successful this season. In the Oak Forest game Brennans were leading the half 16-10. In the final half Oak Forest spirited and went in the lead 21-20. Then the teams tied with each other making basket for basket and the lead changed 5 times with the score 26-25 for Brennan. Uthe, and Heims each scored a basket just prior to the final whistle. Incidentally Uthe and Heims were high scorers for Brennans and former with 13 points and the latter with 10 points. For Oak Forest Maxwell was chief man with 18 points.

Sunday afternoon the Brennan Gables lights defeated the Lemont lights by a score of 30-24 in an overtime game. The Brennans came from behind in the second half with a new lease on life and at the regular playing time the score was 24-11. In the extra time the Gables made 6 points while holding their opponents scoreless. H. Uthe took the spot light with 9 baskets and a free throw with a total of 19 points. For Lemont Nickols was high point man with 6 points.

Monday, Feb. 28 the Orland Park girls team defeated Palos Park girls by a score 8-4. This makes a standing of one and one for the Orland and Palos girls.

JOLIET, ILL.

HOMER

Mr. and Mrs. Bert Rohweder and family have moved to their new home in Flossmoor.

Miss Edith Tilsy underwent a minor operation at Silver Cross hospital in Joliet Monday. She is recuperating in the home of her aunt, Mrs. Wm. Ross.

Shirley Braasch has been on the sick list the past week.

Earl Kopleman who has been detained from school at the Lockport high school resumed his work this week.

The Ladies Community club will be entertained at the home of Mrs. Kay Myers on Wednesday afternoon March 9. Mrs. Frank Rowley will be the assisting hostess.

Mr. and Mrs. Elmer Rowley and daughters of Chicago Heights spent Washingtons birthday at the home of Mr. and Mrs. C. G. Rowley.

A large crowd attended the dance Saturday night which was sponsored by St. Michael's church of Orland at the Goodings grove hall.

Next Friday evening March 4 the Maple Street Arbor of Gleaners will sponsor a dance at the Colonial hall in New Lenox. The public is invited to attend.

Miss Glenna Paddock is confined to her home by illness.

Mr. and Mrs. Wm. Schnarz moved to their new home in Plainfield last week.

The Dramatic club will present the play "Cyclone Sally" in the church auditorium March 10 and 11.

Saturday evening, Mr. and Mrs. Sartori opened their home to a large crowd of neighbors and friends. Dancing formed the main diversion of the evening with music by Otto Konow, Mr. Scripture, Roy Volrath and Mr. Sartori. At a late hour refreshment were enjoyed.

PROBATE NOTICE

ESTATE OF ELIZABETH SPIESS, DECEASED.

The undersigned having been appointed Executor of the Last Will and Testament of Elizabeth (Elizabeth) Spiess, late of Mokena, in the County of Will and State of Illinois, deceased, hereby gives notice that he will appear before the Probate Court of Will County, at the Court House in Joliet, in April, 1938 on the first Monday in April, next (being the Fourth day of said month), at which time all persons having claims against said estate are notified and requested to attend for the purpose of having the same adjusted. All persons indebted to said estate are requested to make immediate payment to the undersigned.

Dated this 25th day of February, A. D. 1938.

HARVEY A. SPIESS,
Executor, as aforesaid.
Alebrt H. Krusemark, Attorney.
Feb. 25. Mar. 4-11

The WHITE STORE
"Joliet's Brightest Spot"
305 to 309 Cass Street
JOLIET, ILL.

Mr. and Mrs. G. R. Grady and daughter, Nancy, Miss Mildred Weiler all of Chicago and Mr. and Mrs. Bernard Homerding were dinner guests Sunday in the Barney Welter home.

At the annual Farm Bureau meeting which was held in St. John's hall in Joliet Saturday, L. W. Braham, Farm Adviser, awarded certificates of honor to owners of 14 dairy herds in improvement association work. Frank Loucks and F. Sayers were amongst those receiving certificates.

The Ladies Missionary Society met in the dining room of the Congregational church Thursday. The work for the day, was quilting and sewing carpet rags. At noon, dinner was served to the 25 guests by the hostesses who were Mesdames. Elizabeth Anderson and Reed Burch. Mrs. Rose White and Mrs. Geo. Ott will be the hostesses for the March meeting.

The Wayside Workers of the King's Daughters will meet Thursday afternoon in the home of Mrs. Bertha Bigelow at Lockport. Miss Myra Reed will be assisting hostess. Mrs. James Owen will renew the book, "In The Steps of St. Paul."

The Royal Neighbors met in the Woodman hall Thursday afternoon. Bunco was played after the meeting and prizes were awarded to Mrs. Madeline Welter, Mrs. Florence Parker, Mrs. Anna Welter and Mrs. Marie Welter. Refreshments were served by Mrs. Dorothy Lester and Mrs. Abbie Timm. The social hour at the March meeting will be in charge of Mrs. Frances Weber and Mrs. May Doctor.

NEW LENOX
By Dolores Walsh

A meeting of the local F-Men will be held March 9 in the Athletic club rooms.

Mrs. Harlow Gougar opened her home last Wednesday to the meeting of the Woman's club. In the absence of the program chairman, Mrs. Jas. Gurley presented the following program: Review of the courting days of Abraham Lincoln; Mrs. A. D. Miller a round table discussion on "Garden Whimsies" was conducted by Mrs. George Morris; Mrs. A. Hendrickson read an article on "What to do when the Prowler comes"; Mrs. Wm. Penn entertained with a group of piano solos and Mrs. Vera Osamus sang several songs; An article on "We all need praise" was read by Mrs. Louis Wilson. The group voted to plant an acre of trees in a national park in southern Illinois in honor of Miss Harriet Francis, a charter member of the club and a former president. The hostess assisted by Mrs. Walter Rhinhardt and Mrs. Wil-son served refreshments.

Committees for the March meeting were announced as follows:

Hostesses—Mrs. Earl Strausberg. Mrs. Will Sayers. Program—Mrs. A. D. Miller. Mrs. Louis Pelkey and Mrs. F. Wenzel.

Announcement has been made of the engagement of Miss Nola Swinson of New Lenox, daughter of Mr. and Mrs. Harrison Swinson of Parkersburg, Ill., to Steven Terando of New Lenox, son of Mr. and Mrs. Joseph Terando of Spring Valley, Ill. The wedding will take place some time this month.

LINCOLN ESTATES
Mrs. R. Fisher.

Mrs. Robt. Weir returned home after a trip to Canada where she was called on account of illness of her son Arnold Weir, who with his wife and son returned home with Mrs. Weir.

Mr. and Mrs. R. M. Fisher were business callers in Chicago Monday. Mrs. Frank Kovar is confined to bed due to illness.

Mrs. Peter Sluiter is also sick in bed at this time.

After being closed for a period of seven weeks the Community Bible Sunday school reopened in the school house of district No. 156A.

We had 22 present and were honored by having Rev. Aleck T. Olson with us. Rev. Olson is sailing from New York on March 12 for Africa as a missionary.

Now is a good time to get out that lawn mower and sharpen and oil it in tip top condition for it won't be long now.

Raymond Murray son of Mr. and Mrs. Clarence Murray residing on 79th st. was taken to Silver Cross hospital Tuesday for a major operation. His many friends wish him a rapid recovery.

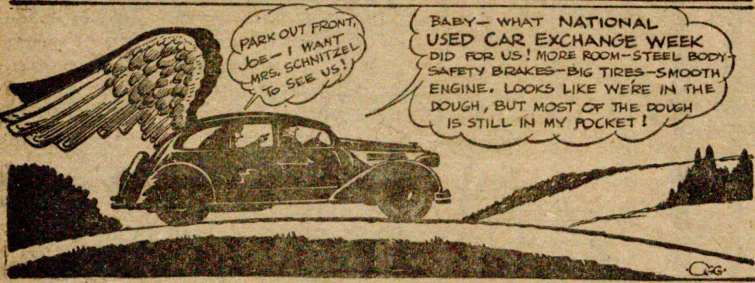

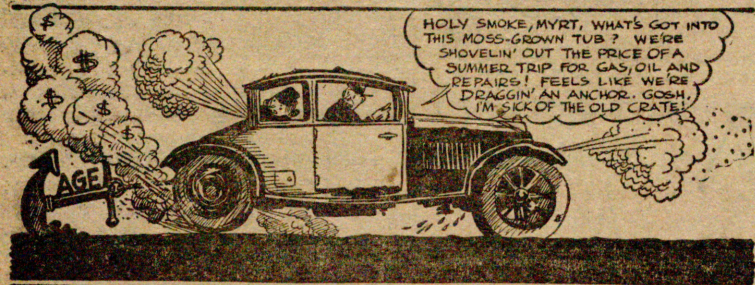

Mr. and Mrs. Otto Metz of Chicago visited Monday evening in the home of Mr. and Mrs. Ed. Gill.

The Eighth grade pupils of Ann Rutledge school entered a contest about Abe Lincoln sponsored by Mr. Walter Peterson of Lincoln Estates. The title of their essays was "Would Lincoln Make a Good President now and Why". The prize for the best essay was a book on Lincoln, "Abe Lincoln Grows Up." The winner of this contest was Marjorie Fisher.

Ask Me Another

A General Quiz

1. Who gave the name "Empire" to the state of New York?
2. What is a Rhodes scholar?
3. The portraits of what two women have been used on United States postage?
4. On what date does the government fiscal year begin?
5. What do the Four Horsemen of the Apocalypse represent?
6. What secretary takes precedence in the President's cabinet?
7. What is a translucent substance? A transparent substance? An opaque substance?
8. When has this country issued mourning stamps?

Answers

1. It is attributed to George Washington, who mentioned it in an address delivered in 1784 as being "at present the seat of empire."
2. A non-English student awarded a scholarship at Oxford university from a fund which was established by the will of Cecil Rhodes.
3. Those of Martha Washington and Pocahontas.
4. The government fiscal year begins July 1.
5. War, famine, pestilence, and death.
6. The secretary of state.
7. A translucent substance permits the passage of light rays through it, but objects cannot be distinctly seen through it. Objects can be seen distinctly through a transparent object. An opaque object does not reflect or give out rays of light.
8. A Lincoln stamp in 1866, McKinley stamp in 1922, Harding stamp in 1923 and Wilson stamp in 1925. Garfield received postal honors within a year after his death, but the color of the stamp was brown.

Citizenship

A natural born citizen of the United States does not lose his citizenship by living abroad, no matter how long he stays there, unless he renounces it by becoming naturalized in the country of his choice.

Can Mere Affection
Be a Good Substitute
for Love?

DEAR MISS DENE: What do you think of affection as a substitute for love, as far as getting married is concerned? I want to marry but can feel nothing but affection for my future husband. Is there any hope for happiness?—A. W.

ANSWER—Everything depends on your age, A. W. No one can make hard and fast rules about affectionate marriages in general but a good many points must be considered before undertaking such a relationship.

Young people should marry for love, and no nonsense about it. For while we're young our hope of romance is high and if it is denied us, we yearn for it all our lives and imagine ourselves cheated of life's dearest gift—even though we may be admirably suited to the mates we chose.

No matter how much the modern writers attempt to analyze love into shreds, it must still be for the young, a vital spark, a feeling for which there is no accounting. It is absolutely right that young people should ask themselves practical questions about the mates they have chosen, but before they begin their self cross-examination they should first have experienced something deeper than affection, something beyond reason.

Young people cannot afford to do without the vital spark. They cannot hope to substitute for it, financial security or good solid affection or a satisfactory companionship. They must know something of the first careless rapture before they can decide to get along without it forever. But men and women of ripe years may well marry for reasons other than sheer heart-burning love. A man or a woman who has known love, and the bitterness of renunciation or disillusionment, may find peace and happiness with a tolerant, understanding, sympathetic mate.

Spinsters and bachelors who have been lonely for years find peace and contentment in marriage, even though the tender passion be denied them.

A man may marry for the second time and be as happy with the wife he has chosen to keep him comfortable as he was with his first wife who gave him love. A woman may divorce her husband, whom she once loved passionately, and settle down serenely with a man for whom she has only affection.

Middle-age has learned love's lesson and is willing to compromise with life and take what's offered for contentment's sake. Loneliness and middle-age can make marriage seem a haven of refuge even though it be a marriage of convenience pure and simple.

DEAR MISS DENE: I have quarreled with my mother and now live in an apartment of my own. I seem to be losing my friends. I do not tell them of what has occurred, and so have to make up reasons why they cannot see me in my home. I hate the feeling that everybody is whispering about me. I feel that this quarrel may have cost me dear in more ways than one.—V. D.

ANSWER—Cast a veil of secrecy over your life, shroud yourself in mystery and at once you set the whole world whispering. And the chances are that the world being what it is, some of the whispers will have a distinctly unpleasant flavor.

If you are going to make a mystery of where you live and why, the more conventional of our friends will begin to shy away like frightened horses. Knowing nothing of the true state of affairs, their imaginations run riot in the attempt to discover why you've suddenly become secretive.

It is better always to tell the truth—however ugly it may sound for the truth at its worst can never compare with the stories your neighbors have already concocted about you.

Since you are living a new sort of life, tell people about it. The minute you give your audience the facts they will cease to conjecture, and on the day the conjecturing stops, your reputation will undergo a change for the better.

A. L.—You have spent so much time and energy in your detective work that one can only congratulate you on the fruit of your labors. A more sympathetic soul than mine would tell you that you had been badly used, but it seems to me that any girl so constantly surrounded with suspicion was bound to get a few wrong ideas in her head.

You have refused to trust her from the minute you met her. You have always accused her of the worst. You have fought down any impulse rising in you to believe that she was worthwhile. Are you surprised that after three years she has decided to put some of your suggestions into practical use?

I believe this is the first time she's ever deceived you and I also believe that if you took her back now, you'd be doing the one thing which would save you both from misery. But you must make up your mind to put away the sleuth's outfit when you marry her. To live with a house-detective is enough to put any woman into the frame of mind where she feels impelled to go out and do some of the things her charming husband has suggested.

Lesson for March 6

SERVING WITH WHAT WE HAVE

LESSON TEXT—Mark 6:1-13.
GOLDEN TEXT—Such as I have give I thee.—Acts 3:6.
PRIMARY TOPIC—When Jesus Went Home to Nazareth.
JUNIOR TOPIC—On a Journey for Jesus.
INTERMEDIATE AND SENIOR TOPIC—Serving With What We Have.
YOUNG PEOPLE AND ADULT TOPIC—Serving With What We Have.

One of the difficulties we mortals face in dealing with spiritual things is that we interpret things in the realm of the spirit according to the principles and measurements of the physical world. We are quick to say "We cannot" on the basis of logical human reasoning, when an appreciation of the power of God operative on our behalf would enable us to say "We can," and having left God out of our thinking we find that indeed we cannot.

The lesson before us presents two pictures from our Lord's second visit to his home country, Nazareth. On His first visit they had tried to thrust Him over the precipice, and He in all the glory and poise of the Son of God had walked through their midst and gone His way. Now He comes again with His disciples. We then see how His home folk virtually made the power of the omnipotent God impotent because of their unbelief. On the other hand we see the weakness of men made mighty because of obedience to the command of God.

I. The Paralysis of Unbelief (vv. 1-6).

The world, the flesh, and the devil have brought forth a dark list of wicked things, but perhaps the most destructive and distressing of all is the foundation sin of unbelief. When we think back to the underlying reason for any sin or weakness in man it will be found that there is a failure to believe God. Men do not believe what He says about sin and its penalty, nor do they believe Him when He offers them grace and strength for victory.

At Nazareth the unbelief which limited the Son of God revealed itself in two questions—

1. "Whence hath this man these things?" (v. 2).

They could not deny His mighty works so they turn their attack on His person. "Is not this the carpenter?" (v. 3). Essentially this was envy, "the difficulty of acknowledging the superiority over themselves of one of their own number" . . . (Morgan).

We are ashamed of the attitude of the men of Nazareth, but we follow in their footsteps. Heavy among the burdens a Christian worker must bear is the unbelief and ridicule of his own people. Because a man has sold us groceries, or painted our house or driven a taxi in our town we cannot see how he could ever be a preacher or a missionary. Well, he can, and it is such folk that God often calls.

2. "What is this wisdom?" (v. 2).

The wisdom of Jesus was the wisdom of God (John 7:16). But how could they know that? How can we know? In John 7:17 Jesus gave the answer: "If any man will do his will, he shall know of the doctrine, whether it be of God, or whether I speak of myself." We see then that the reason for their unbelief was really an unwillingness to do the will of God. The controlling motive of their life was wrong. Had they been moved by a desire to do God's will, and a purpose to live in accordance therewith (even though there might have been failure in that earnest effort), they would have known that Jesus had His wisdom from God.

II. The Power of Divine Commission (vv. 7-13).

Just as unbelief hinders even the Son of God, so faith in God and obedience to His command makes of weak and poorly equipped men the mighty servants of God. In fact, their very dependence on Him for all things sets them free to devote themselves fully to the ministry of preaching and healing.

Note that they went "two by two." We have forgotten that divine plan, and often send men into remote and dangerous pioneer work—alone. Man needs fellowship; he needs counsel and control.

Consider also how they were to learn to trust God for their daily sustenance (vv. 8,9). They suffered no lack (see Luke 22:35). These rules for the life of religious workers were modified later (Luke 22:36), but the principle remains the same—the man or woman who is not ready to depend on God for everything had better not set out to follow Him. It is a blessed and delightful life!

Resisting Interference

It is sometimes pretty hard to do something you feel is right against the interference of all the world and her little brother. Sometimes it's a good thing to say "right or wrong, that's my story, and I'm going to stick to it," no matter how many well-meaning friends may advise otherwise.—Ouse Vapel.

Mother's Work

"The future destiny of the child is always the work of the mother."—Napoleon.

For Your Spring Wardrobe

DRESSES that not only satisfy your present craving for something new and spring-like, but also look ahead to a later season, too. Make them yourself at home, for very much less than you usually spend on clothes. You'll find it very easy to do, with the sew chart that accompanies each pattern.

Corsette Waistline.

If you have a slim figure, this is the afternoon dress for you! The fullness over the bust, the sleeves cut in one with the shoulders, and the lifted waistline, are just as flattering as they can be! It's the kind of dress you can wear to bridges, luncheons, meetings, and for every afternoon occasion, with the assurance that it is not only smart but becoming.

Sleeveless House Frock.

Especially designed for full figures, this house frock follows straight, tailored lines, and fits beautifully. You can get into it in nothing flat, and it doesn't take long to make either, thanks to the

Unwelcome, Perhaps,
But Insulted—Never!

The young man had been overjoyed at getting a job as commercial traveler, but after a week he began to feel rather fed up.

"How are you getting on?" inquired an old hand at the game.

"Badly," was the reply. "I have been insulted at every place I have visited."

"That's strange," was the reply. "I've been on the road 40 years. I have had my samples flung into the street. I have been taken by the scruff of the neck and hurled downstairs, and I don't deny that I have been rolled in the gutter. But insulted—never in all my years of experience have I been insulted!"

Don't experiment with

Children's Colds

Relieve Their Misery
This Proved Way

WHEN your child comes down with a cold, you can't afford to take needless risks. Use the treatment that has been *doubly* proved for you—Vicks VapoRub.

It has been *proved* by everyday use in more homes than any other medication of its kind—*further* proved by the largest clinical tests ever made on colds. (Full details in every VapoRub package.) Only Vicks give you proof like this.

Vicks VapoRub is direct external treatment. There's no dosing—no risk of spoiling appetite, or disturbing a delicate digestion. VapoRub can be used freely, as often as needed, even on the youngest child.

You simply massage VapoRub on throat, chest, and back (as illustrated). Then—to make its long-continued double action last even longer—spread a thick layer on the chest and cover with a warm cloth.

No Long Waiting for Relief to begin...

Almost before you finish rubbing, the youngster begins to feel warm and comfortable as VapoRub goes to work *direct* through the skin like a poultice. At the same time its medicated vapors, released by the warmth of the body, are carried *direct* to the irritated air-passages *with every breath*.

This double action loosens phlegm—relieves irritation and coughing—helps break up local congestion. And long after the little one relaxes into restful sleep, VapoRub keeps right on working—hour after hour. Often, by morning the worst of the cold is over.

VICKS
VAPORUB

Are Women Better
Shoppers than Men?

GRANTING a woman's reputation for wise buying, let's trace the methods by which she has earned it. Where does she find out about the advantages and details of electrical refrigeration? What tells her how to keep the whole household clean—rugs, floors, bathroom tiling—and have energy left over for golf and parties? How does she learn about new and delicious entrees and desserts that surprise and delight her family? Where does she discover those subtleties of dress and make-up that a man appreciates but never understands?

Why, she reads the advertisements. She is a consistent, thoughtful reader of advertisements, because she has found that she can believe them—and profit thereby. Overlooking the advertisements would be depriving herself of data continuously useful in her job of Purchasing Agent to the Family.

For that matter, watch a wise man buy a car or a suit or an insurance policy. Not a bad shopper himself! He reads advertisements, too!

TIPS to
Gardeners

Grow Better Flowers

GROW better flowers by planting them in the kind of soil in which they can perform best. Though your soil may be good and rich, certain flowers will not do as well in it as in poorer ground.

In rich soil plant zinnia, petunia, portulaca, snapdragon, stock, heliotrope, marigold and salvia.

Nasturtium, love-lies-bleeding, Joseph's coat, celosia, alyssum, California poppy, calendula, love-in-a-mist and hollyhock are suggested by the Ferry Seed Institute for growth in poor soil.

Heavy soil containing clay is good for sweet peas, pansies, stocks, carnations, scabiosa, snapdragons and most of the popular perennials.

The following prefer a soil of light texture:

Petunia, Portulaca, celosia, hollyhock, love-in-a-mist, annual phlox, calliopsis, nicotiana and all the climbers.

In garden plots that are partially shaded grow calendula, balsam, mignonette, pansy and vinca.

Life Is Music

All one's life is music, if one touches the notes rightly, and in time. But there must be no hurry.—John Ruskin.

Our Friends

Friends are not so easily made as kept.—Lord Halifax.

2 WAY RELIEF
FOR THE MISERY OF
COLDS

Take 2 BAYER ASPIRIN tablets and drink a full glass of water. Repeat treatment in 2 hours.

If throat is sore from the cold, crush and stir 3 BAYER ASPIRIN tablets in ½ glass of water. Gargle twice. This eases throat rawness and soreness almost instantly.

All it usually costs to relieve the misery of a cold today—is 3¢ to 5¢—relief for the period of your cold 15¢ to 25¢. Hence no family need neglect even minor head colds.

Here is what to do: Take two BAYER tablets when you feel a cold coming on—with a full glass of water. Then repeat, if necessary, according to directions in each package. Relief comes rapidly.

The Bayer method of relieving colds is the way many doctors approve. You take Bayer Aspirin for relief—then if you are not improved promptly, you call the family doctor.

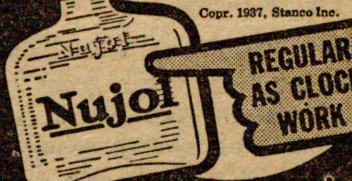

15c FOR 12 TABLETS
2 FULL DOZEN 25c
Virtually 1 cent a tablet

Game Animals Doubled

Big game animals in the national forests have more than doubled in the last 12 years.

CONSTIPATED?

What a difference good bowel habits can make! To keep food wastes soft and moving, many doctors recommend Nujol.

CHAPTER XIV—Continued

"You make a great mistake," said Dorado pleasantly, "two mistakes. It is not so easy to die as you think, also you would be no use to me dead. I wish you only kindness and goodness and a long life as the Senora Pepe Dorado." He paused. "We will enjoy La Barranca together."

She stared at him over the half empty plate, set it aside on the cot but retained the three-tined steel fork. With a single sweeping movement, unbelievably swift, he leaned forward and struck the murderous weapon from her hand so violently it went flying out into the night.

"You want things to be unpleasant, hein?" he cried, his eyes flashing. "Good. From now on you eat with your fingers like the peones. You don't sleep in here where there's plenty of air, no! You sleep inside in the dark—no fire, no air, nothing. Me, I stay here and ten men more."

"All right," said Joyce, a faint light of hope dawning in her eyes. "Can I go now?"

"Yes, now," said Dorado, calming himself by a mighty effort. "Perhaps tomorrow when the priest comes you'll have more sense."

"What good would that do you?" asked Joyce quickly. "You know, as well as I no marriage by a priest is legal in Mexico."

"No? You know so much, eh? Then you know that for the world the church is everything." Again he smiled. "After the religious consummation you won't mind so much the civil ceremony." Again he called and the same two men came back to carry cot, mattress and blankets into the innermost room. He followed, waving a brand from the fire into a flaming torch and propelling Joyce before him. He pointed with his chin along the farther reaches of the drift. "Perhaps you think you can climb out that way. Try it and I give you a present to the men who catch you."

Left alone in darkness Joyce crept to the cot but not to lie down. Dragging a blanket over her shivering shoulders she sat on its edge, elbows on knees and her chin cupped in her hands. It was no good thinking—no good at all—but she could listen, keep on listening. How often had she boasted to herself she was afraid of no man alive! She was afraid now; fear seemed to melt her bones and set the teeth in her head to chattering. Another sound came to her ears, a single snore and soon after a veritable chorus. There was something actually comforting in the harsh dissonance and the longer it continued the more did it soothe her. Presently she fell sideways, stretched out and tumbled into unconsciousness. She awoke to the flare of a wax match. So it was here—she had slept and the terror was upon her! Her throat thickened and closed tight as she discerned Blackadder's eyes, cavernous and glowing. Not the end after all, she thought drowsily, thank God only another dream. But his whisper took on form, became actual words.

"Joyce, don't make a sound. Listen. Do you see this rope? Wait. I'll light another match. Now look. I'm going to tie the end of it around your waist for safety, but the rest will be up to you." The second match went out but the whisper kept on. "Take the rope in your hands. That's it. Now follow it. Walk as quietly as you can, test out each step before you put down your foot. Just follow wherever it leads." His hands brushed across hers, seized the rope and gave it three sharp pulls. "Good-by, Joyce."

"Good-by." She had answered automatically but now something in the manner of his final whisper troubled her and she frowned but presently was intent on carrying out his orders to the letter. She had gone quite a distance before she noticed there was no slack. Even her bemused mind knew what that meant; somebody at the other end was taking it in. Suddenly the rope slanted upward so sharply she stumbled and fell to her knees. She was up again in a moment and stood quite still, wondering if the sound of her fall had been heard. Apparently not. She continued, resting more and more weight on the rope as the climb grew steeper. Several yards of the ascent were behind her when a stone that had seemed firm sank away and went rumbling downward. The next instant the roar of a dozen voices reverberated far down, far behind her, so the very earth seemed to shake. Then three lonely shots. Then an answering deafening volley. Now she knew why Helm Blackadder's good-by had lingered so strangely in her ears.

The rope was lifting her, dragging her upward faster than she could place her feet. Her knee struck here, an elbow there, and sometimes her shoulders dug into the damp loam of the disused shaft. Breath went out of her, stayed out. Her hands still clung to the rope,

but with a grip like the grasp after death. Her head drooped between her arms, struck and struck again. So this—not that other—was to be the end.

Dirk knelt beside her. "Joyce! For God's sake, Joyce! You've got to speak! Oh, Joyce, wake up. Darling, we've got to get away, you've got to ride!"

"Let up on it," advised Leonardo sharply. "Can't you see she's passed out? Get on your horse, senor, and take her. Hurry!"

Dirk mounted Tronido. "I'm ready; what are you waiting for? What are you doing?"

"You never can tell," said Leonardo, pausing to knot a tie rein to one of the thorn trees. "There's a bare chance the senor who went below may crawl out of this hole alive and if he does he's going to find a horse. Tobalito?"

"Presente!"

"Give me a hand with the senorita."

Together they lifted Joyce and placed her in Dirk's arms. Sitting on the ridge of the cantele he gave her all the saddle he could and trembled for fear Tronido might act badly under the unaccustomed burden, but the horse seemed to know exactly what it was all about. They

Thrust Dirk Back When He Attempted to Follow.

started, Tobalito as guide in the lead, Dirk next and Leonardo, armed, bringing up the rear. A whinny from the tethered range pony rang out sharply across the desert air. Startled, Tobalito put spurs to his flea-bitten mount. Dirk found a trot galling, but was at ease the minute Tronido reached out into the cradle-like motion of his swinging canter. He shifted Joyce so her head lay against his shoulder, passed the reins to his right hand and with his left held her knees securely. Though her coma persisted he knew she lived by the faint tremor of her breathing and because while at first she had seemed rigid and cold now he could feel his own warmth gradually stealing into her veins.

But he was troubled about something else. "Leonardo," he called over his shoulder. "Do you really think there's a chance Blackadder's still alive?"

"None, senor; he did not wish to live."

"Why do you say that?" Leonardo rode closer, not caring to shout his answer. "He really died when he came to after we'd pulled him out at the place of the fallen bridge. He spoke and told us all, but I could see it was a dead man talking."

"Are you loco?" asked Dirk.

"No, for I've seen it happen before," said Leonardo. "With some men pride takes the place of blood and bone; destroy it and they die. It was so with him. His tongue talked but only to tell us of his shame; I could see his heart and eyes were dead. He knew he could never return to his ancient path, never walk upright except to death. So he died, God and the Virgin rest his soul."

"Then why did you leave the horse?" asked Dirk. "Do you expect a miracle?"

"No," said Leonardo hesitatingly, distressed at being driven into a show of his secret thoughts, "though in my country miracles have often happened. I think I was moved, senor, in the manner of my ancestors, to make a living sacrifice to the memory of a brave man."

Dirk imagined a faint stirring within the burden in his arms, something vaguely different from the mere persistence of life. He peered down at Joyce's face, tilted against his right shoulder, and studied it in the light of the stars. It seemed deathly pale, a patch of moonlight—mere reflection of a far-away reflection. Her eyes were closed and her lips, though half

open, never stirred. He spoke to her.

"Joyce, you aren't awake, are you? Can you hear me? Just move something—your hand or your lips. Show you hear me."

There was no answer by sound or sign, nevertheless so strong a feeling of content pervaded him he could not doubt all would yet be well. Tobalito knew better than to follow the barranca too closely; he made a detour through little-used paths known to few but himself. The pace slowed from a canter to a walk and Dirk, glad his companions knew no English, began to talk.

"Joyce, I love you. Whether you can hear me or not doesn't matter in the least since anyway I'll be telling it to you over and over again. I don't know when it began or where it will end, and I don't care. I'm part of you and you of me. There's nothing cheeky in what I'm saying, really there isn't, because it's just something that's happened and can't be helped. I love you. I belong to you the way your hand belongs. You can do anything you like with me except cut me off. If you do that, you'll bleed—bleed to death."

Abruptly his face leaned lower, nearer to hers. "Oh, that's nonsense!" he cried. "How do I know? What makes me think you'll bleed? How can I keep on believing it if you don't say so? Oh, Joyce, darling, please speak, please tell me. How can you be so near my heart and not answer it? I can feel yours and it's still—so still it's almost as if it weren't beating at all. But you can't be dead since I still live. My blood is your blood. Everything I was, everything I'm going to be, has rushed into this moment with you in my arms. Because I love you. I love you."

Tobalito debouched suddenly from the shadowy recesses of an arroyo and came to a halt with Dirk beside him; Leonardo drew level. In plain view, only a few hundred yards away, stood the white mass of La Barranca. To the right was the towering blot of trees, melting into the inky expanse of the lake choked with hyacinths. To the left stretched the illimitable prairie, marked here and there with the black candelabra and exclamation points of cacti. No light showed from the hacienda, yet they knew eyes were watching from every angle as they advanced toward the eastern gate. It swung open at their approach and they entered. Promptly it slammed shut behind them.

Luz took command of Joyce, still inert, and thrust Dirk back when he attempted to follow. Adan Arnaldo, gloomy because poor horsemanship had prevented his joining the rescue expedition, led him to Don Jorge in his office where he was greeted with the news a courier had come through from Mexico City and tossed dispatches for himself and Blackadder across the now impassable barranca. Dirk opened the long envelope bearing his name with some trepidation and was relieved to find it a personal missive, written in the ambassador's own hand.

"My dear Van Suttart," he read, "at last word has reached me through General Onelia of your whereabouts. For your diligence in following out to the letter the instructions in a certain cable from the department you are to be commended. For assuming I was to be kept in pitch darkness as to your movements, thereby robbing me of sleep and turning my hair from gray to white, I intend urging your dismissal from the service on the grounds of malfeasance unless you return at once to your regular duties. As you have darkened my days, so will I blacken your name—"

and I'm not joking—if you don't come back on the run. It may interest you to know my contact with General Onelia arose from his assumption of the ministry of war, our old friend in that post having been crushed by the final straw of the mysterious disappearance of a battery of howitzers."

"Bad news?" asked Adan, noticing Dirk's thoughtful expression.

"Not particularly," said Dirk, "but I guess I'll have to rush back if it's only to square myself."

"Give us your account of the rescue, my son," said Don Jorge pleadingly. "We have been very patient."

"Forgive me, Maxie; I've been rude as well as selfish," said Dirk, and plunged into a detailed account of all that had happened.

As he finished Luz came in search of him with the good news her mistress had awakened and wished to see him. For the first time he entered Joyce's bedroom. It was more cheerful than any other in the house. There was an open fire, burning gaily, and opposite it two high windows looking out upon a walled garden. Between them stood a bed with scrolled back and no footboard. Its towering tester made it seem a throne but Joyce, her dark head half buried in pillows, looked too small for a queen. He sank on his knees and seized her listless hand.

"Joyce," he whispered, "didn't you hear? Nothing at all?"

"Hear what?" she asked, her eyes studying his face feature by feature.

"When I was holding you in my arms on Tronido," he explained.

"You were close to me, your heart against my heart. My lips were beside your ear. Oh, Joyce, you couldn't have stayed unconscious all that time—you must have heard."

"But what was it you said?" she insisted, looking him full in the eyes.

"I—I told you I loved you," stammered Dirk desperately.

"Was that all?"

"No. I said a lot of things. I think I said some of them over and over again."

"What were they?"

He knelt in silence, looking into her grave eyes. His hand dropped hers, the arm he had thrown across her waist grew lax. His head fell forward.

"I don't know," he whispered. "I've forgotten. I can't remember a word."

So swiftly he never knew how it happened her arms were around his neck and she had drawn his head down against her breast.

"Oh, Dirk, darling, of course I heard! I heard all you said and a lot more. It wasn't only your arms that were around me, it was your thoughts. I lay in them and dreamed. I felt safe and happy, glad to be sure I'd bleed if ever I cut you off. You kissed me once in your way, now I kiss you in mine. I'm kissing you with my heart against your face."

A dull boom rent the air and trailing it came a weird howl that passed over the house; there followed a rending of branches in the outer garden and then a terrific explosion. Dirk leaped to his feet and stood transfixed. Joyce sank back against the pillows, wide eyes staring at him questioning. All the hacienda stirred into life with the hum of a threatened swarm of bees. Shouts were heard, presently punctuated by the thump of Don Jorge's approaching staff. Joyce half rose, her shoulders gleaming white but strong above the yoke of her filmy nightdress. Abruptly she seemed no longer too small to be a queen.

"That was no earthquake," she stated; "it was a gun—a cannon." (TO BE CONTINUED)

Sinkholes Dot Alpena, Michigan, Section; Cause of Phenomena Remains a Mystery

If reporters and photographers had been on the job in Alpena some centuries ago it is probable the same sort of news stories coming from a western state, telling of farms sinking 200 and more feet, would have been written under Alpena date lines, says a correspondent in the Detroit Free Press.

The depressions are still in evidence—the famous sinkholes of Alpena, Presque Isle and Montmorency counties. The three counties have 37 of the sinkholes from 150 to 200 feet deep, many with walls so sheer they can't be climbed. Rock strata exposed for easy study draw numerous geologists and inspire frequent scientific papers.

Scientists do not agree on the causes of the depressions, but it is generally believed that the sinkholes were originally enormous, deep caverns in the limestone. The roofs are believed to have caved in, causing the sinkholes.

One of the sinkholes is believed to be under water in Misery bay. Fishermen report that when water is high in the rivers they find their boats drifting away from one spot in the bay. When the rivers are low their boats drift toward the

spot as though water from the lake was being drawn through an underground river.

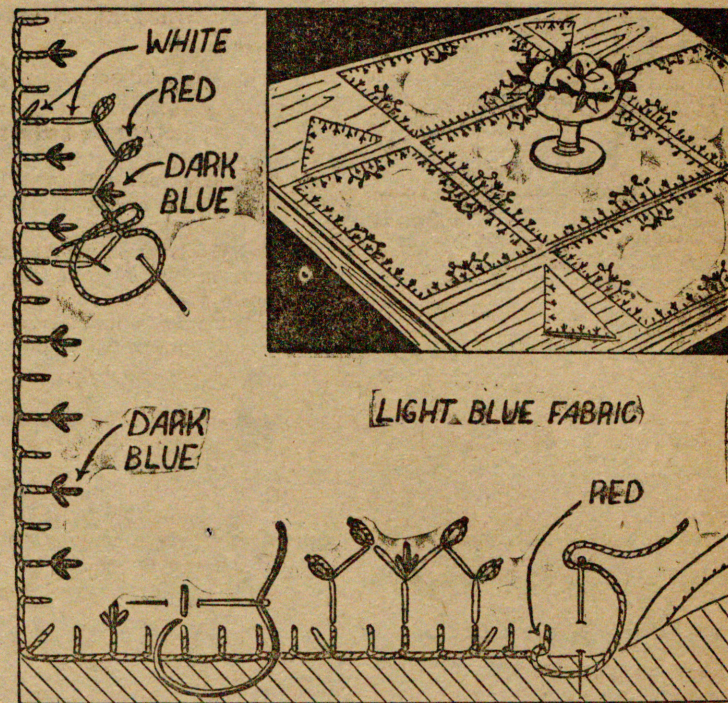

Some of the sinkholes are dry and others are filled with water. Local belief is that some of the holes are bottomless, no soundings ever having been taken on the bottom.

As the depth of the water remains stationary in some despite heavy rainfalls or local conditions, it is presumed that the sinkholes connect with underground rivers. Stories of marked logs being dropped into sinkholes, sucked beneath the surface and reappearing in Lake Huron are discounted by those who have studied the phenomena.

Indians and State Names
American Indians had an important part in naming many states of the nation. Wyoming was called "M'cheuwomink" by the Indians, a Smithsonian institution survey reveals. Nebraska means "flat water," to the Sioux tribes; Oklahoma is the Choctaw word for "red people," and Missouri got its name from an Algonquin phrase meaning "he of the big canoe." Minnesota, literally translated from the Siouan, means "land of the sky-blue water."

HOW to SEW

By RUTH WYETH SPEARS

A Colorful Luncheon Set

WE HAVE been hearing a good deal about American handicrafts lately. Of course, quilts have always been important among our needlework handicrafts. So many readers have written asking me for more of the old fashioned embroidery stitches that were used in making crazy patchwork that I have collected dozens and dozens of these quaint stitches from old quilts. Some of them are so attractive and colorful that it seemed a pity not to use them for modern decorative purposes.

This gay little double house effect built upon blanket stitches with chain stitches flaunting from all gables was the invention of someone's great-grandmother and I couldn't resist using it for a luncheon set of light blue linen. It originally adorned a light blue satin patch in a quilt and all the other colors indicated here in the sketch are the original colors.

All the strands of six-strand mercerized embroidery thread were used for the luncheon set. The mats were hemmed first and then the blanket stitches were taken through the hems to make a firm edge as shown at the lower right. All the other stitches used are clearly illustrated. Just the edge stitches without the little houses were used for the napkins. Many more authentic old patchwork stitches are illustrated in a new leaflet which is free

upon request with the booklet offered herewith.

Have you a copy of Mrs. Spears' new book SEWING? It contains forty-eight pages of step-by-step directions for making slipcovers and dressing tables; curtains for every type of room; lampshades, rugs and other useful articles for the home. Copy will be sent postpaid, upon receipt of 25 cents (coins preferred). Address Mrs. Spears, 210 South Desplaines St., Chicago, Ill.

HOUSEHOLD QUESTIONS

Washing Parsley.—Parsley washed with hot water keeps its flavor better and is easier to chop.

Sweet Omelet.—A tablespoon of sugar added to the regular omelet batter will produce a sweet omelet that is especially popular with youngsters.

Fluffy Meringue.—If you like fluffy meringue for your pies, add a teaspoon of baking powder to the well-beaten whites of two eggs before adding the sugar.

Tape Measure Tip.—Glue a length of tape measure across the front edge of your sewing machine. It'll save that searching for a tape when you want to measure the depth of hems, tucks, etc.

Glowing Lamps.—Here's a tip for country readers who use gas or lamps. Never wash the glass globes as it makes them crack. Sprinkle methylated spirit on a clean soft rag, rub it on the globes, leave for a few minutes, and then polish. They'll be like new.

Would Continue Tax Reforms

Albert Kinson, Democratic candidate for County treasurer, assisted the present treasurer, Conrad Wirth in the installation of the following features which are proving beneficial to all the tax payers of Will County: Part tax payment, bookkeeping daily report, monthly tax disbursements, treasurer's office open during noon hour, records open for public inspection at any time.

If elected, Mr. Kinson says he will continue to carry out the above features and will stand ready to serve the public at all times.
